

“It can’t go on like this, we are  
‘drowning’ in our work and it has  
no results”

# Case analysis

- Lack of cooperation (6 agencies/family)
- Capacity: 45 cases – 48 agencies
- Every agency starts with a new intake
- No common “framework”
- Need multi-agency approach for entire family

# CO3: A Chain Approach

A Client centred Organisation  
3 agencies working together :

- 1) Government: City of Antwerp and Province
- 2) Police and justice
- 3) Social work and aid

# Target group

Families characterized by :

- Complex situation that demands a multi-agency approach
- Multi-problem situation (min. 3 life domains)
- Unsafe situation for victim and/or children
- Difficult start of social work, justice measures

## CO3 common goal

**Stop the violence, prevent  
recurrence of violence and  
increase the protective factors in  
a family**

CO3  
Client  
Centrale  
Organisatie

# Network

Professionals work according to goals from own organisation and work together on a non-committal base

City

Social  
work

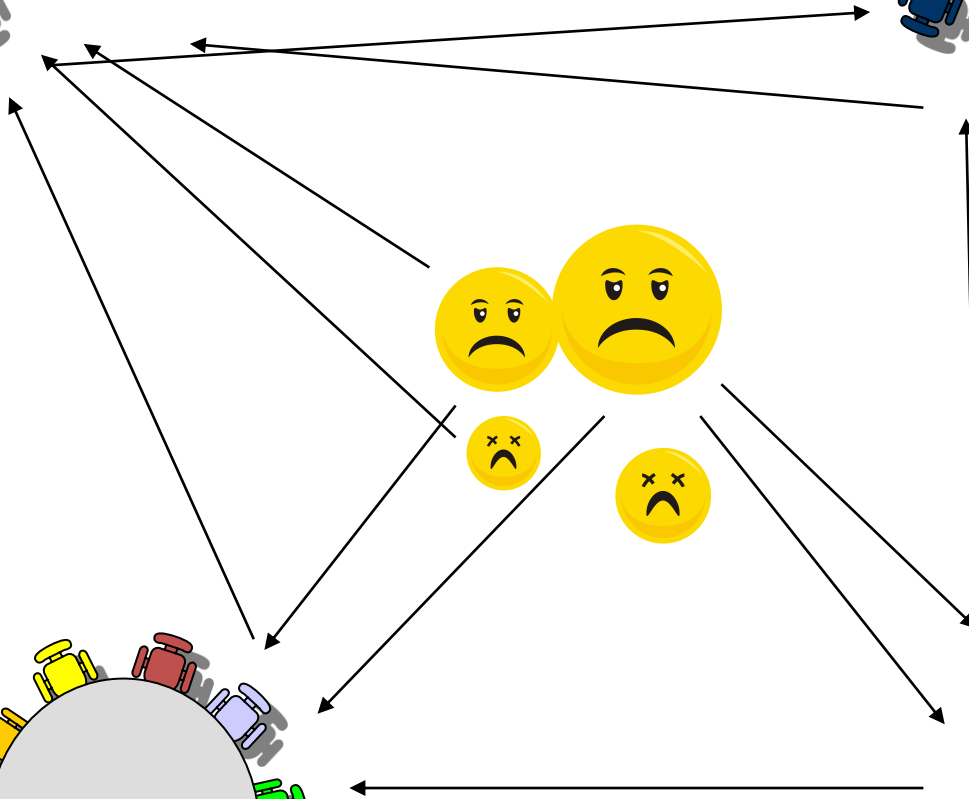

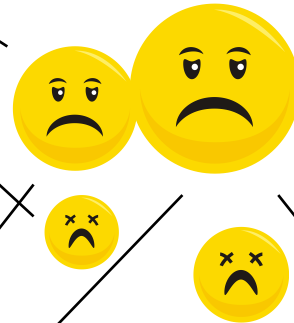

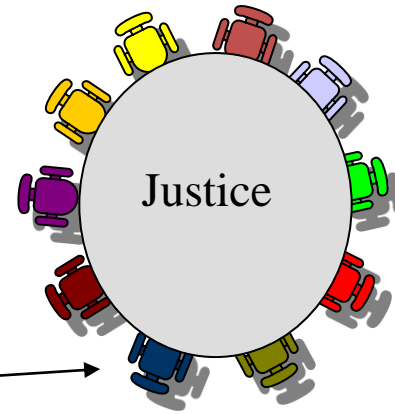

Police

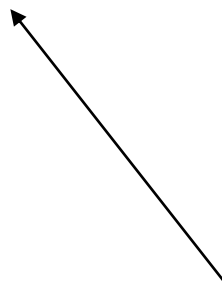

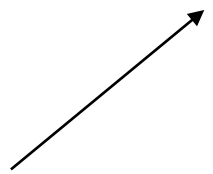

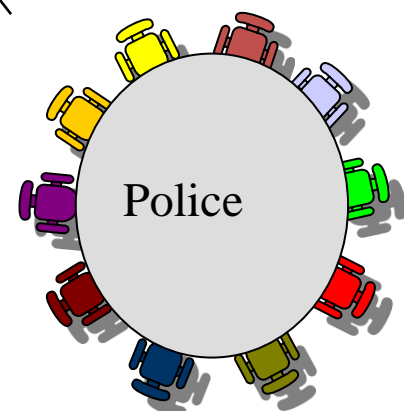

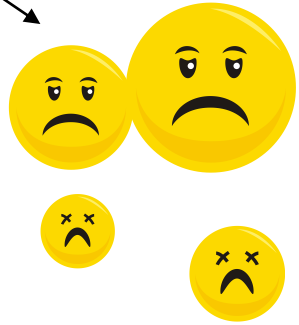

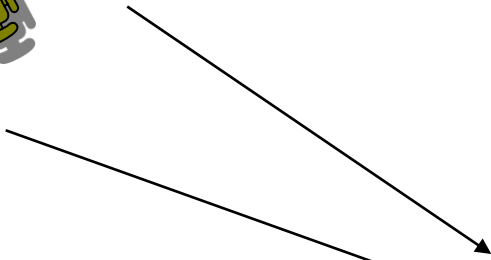

Education

Justice

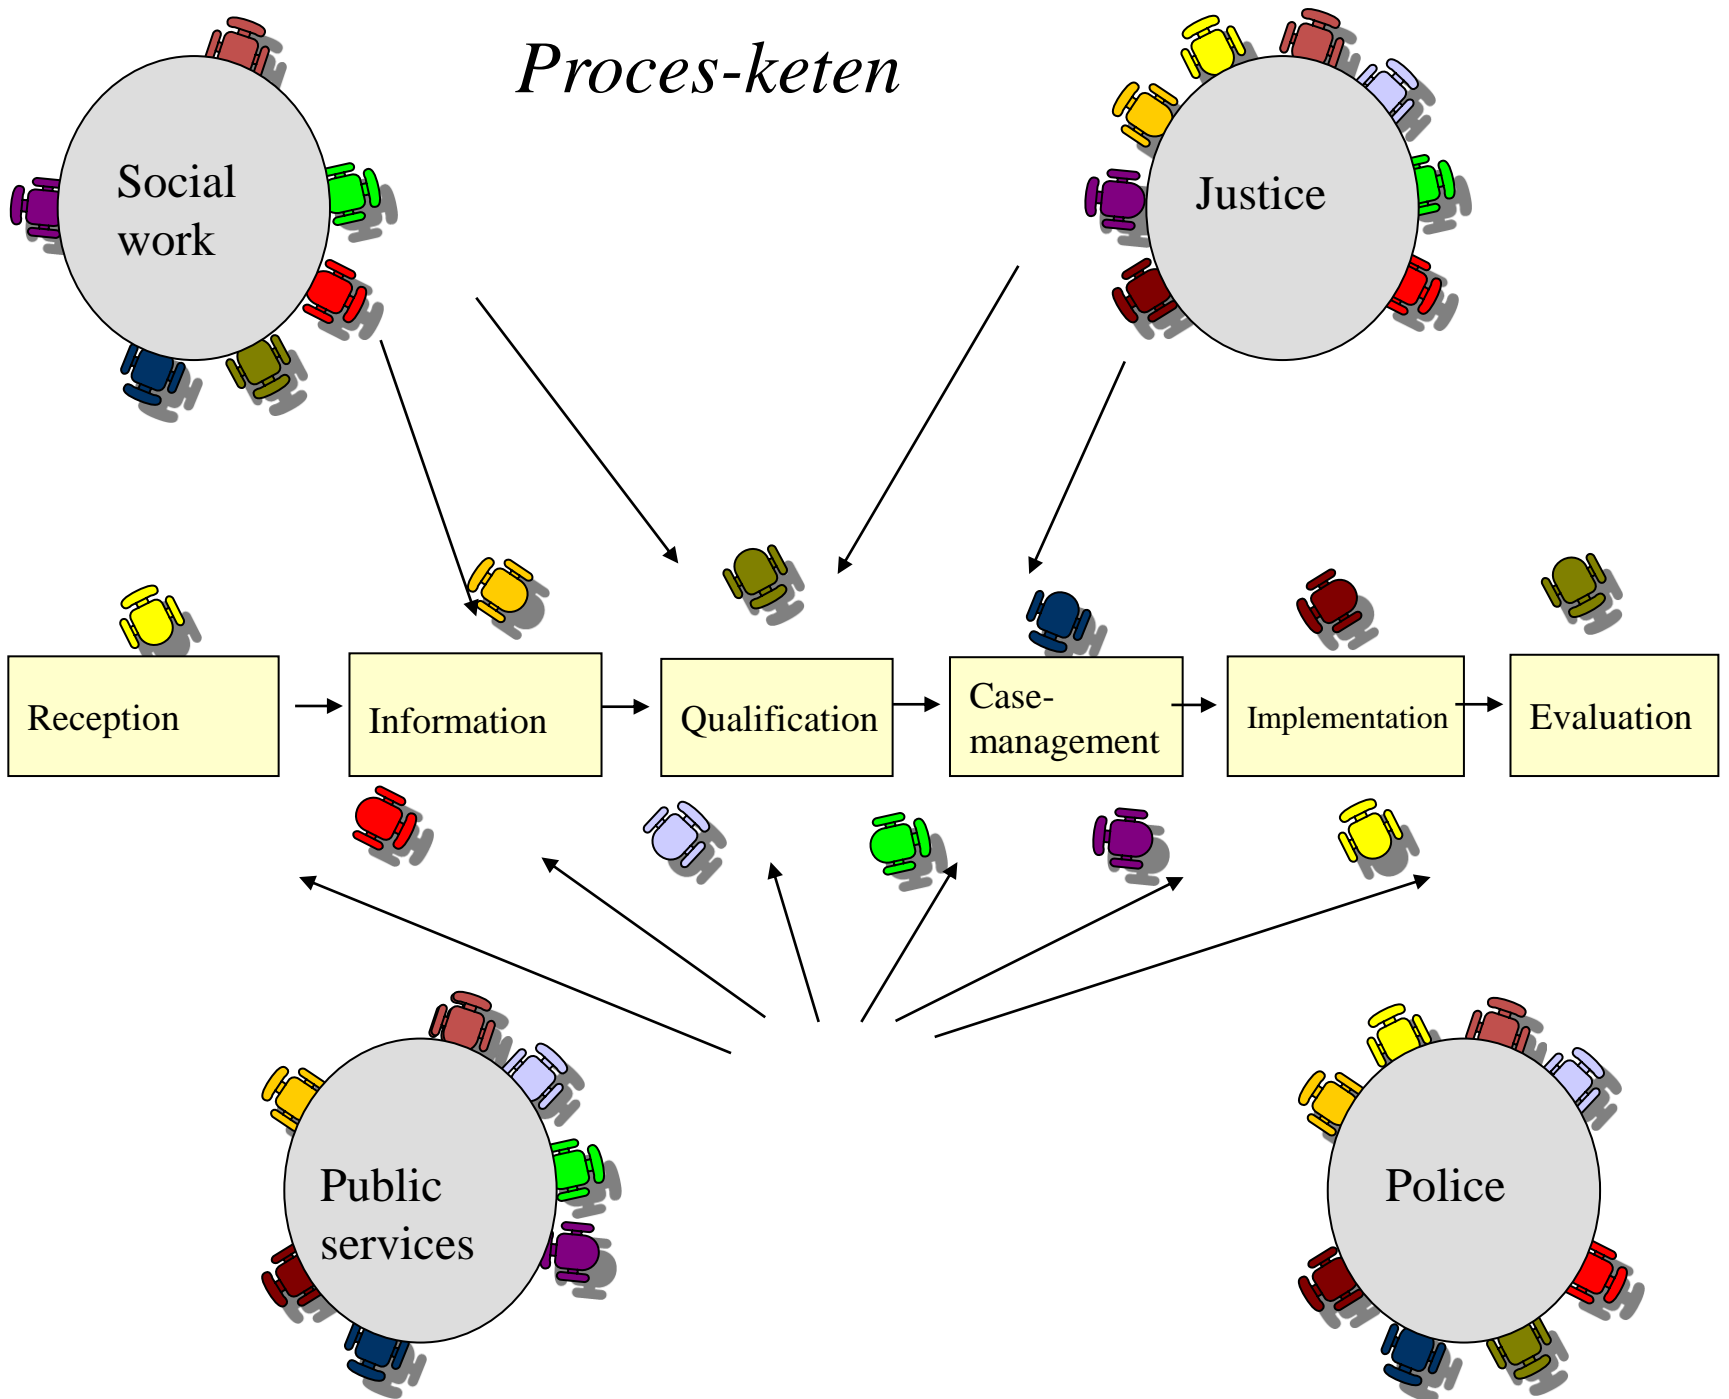

*Agencies work together in a network*

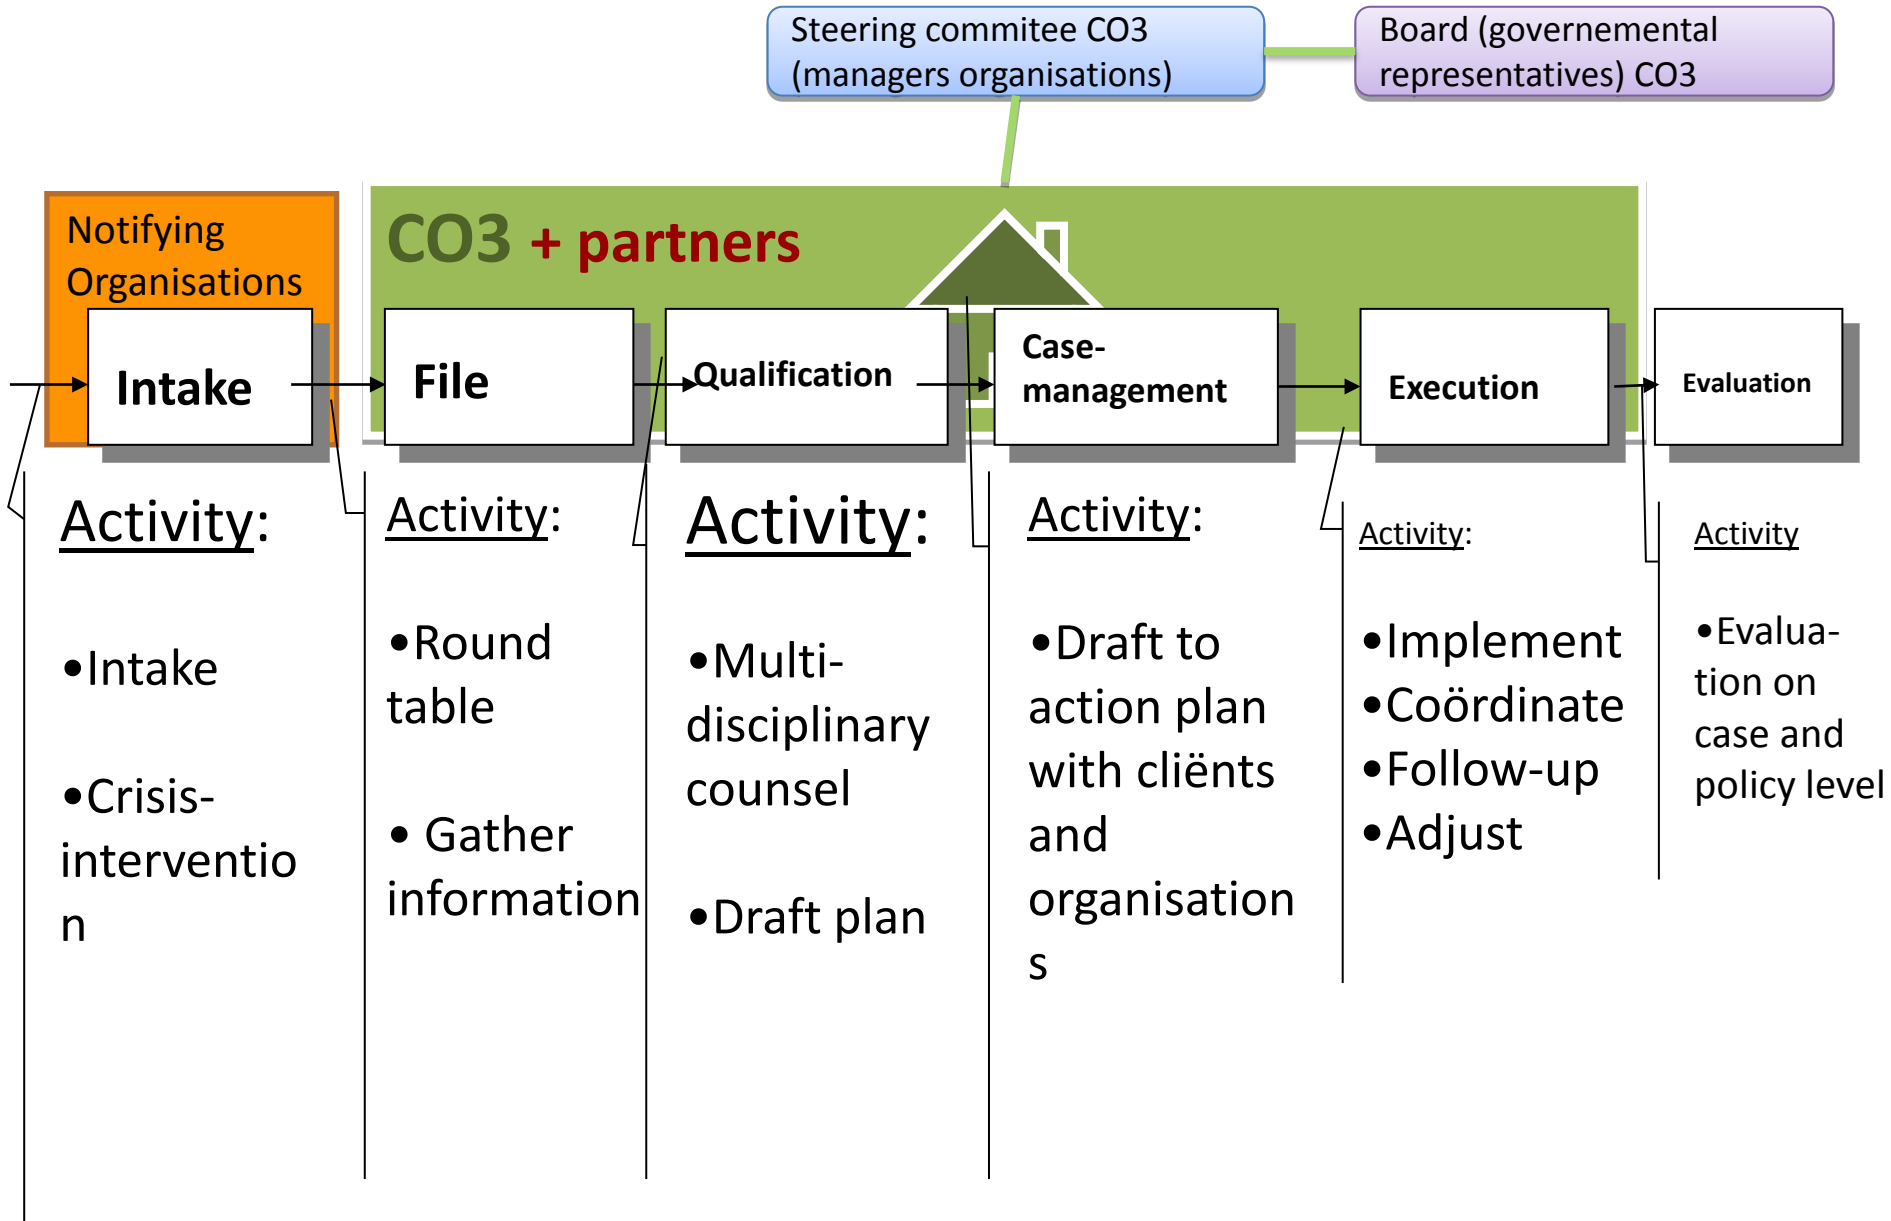

# *Proces-keten*

# CO3: chainplate domestic violence

## evaluation CO3

- Recidivism ?
- Better information
- Works on all life-domains
- Works on entire family
- More specific oriëntation
- Better feedback
