

<b>Crime prevention policy</b>	
<b>EU- priority</b>	Illegal migrant smuggling
<b>Country</b>	Luxemburg
<b>Year</b>	2019

## 1. Overview of the field

### Definition of Illegal migrant smuggling

Integrated Border Management (IBM) is an integrated concept for border control management within members of the EU as well as Iceland, Norway and Switzerland (SCHENGEN space).

In this context, border control at the borders as well as within the national territory must contribute to the fight against illegal immigration, cross-border crime and trafficking in human beings, as well as the prevention of any threat to the internal security, public order and public health.

IBM is explicitly described in the "Schengen catalogue for external border control, removal and readmissions" (19 March 2009 / SCHEVAL 48 Front 21 Comix 252).

### Assessment of trends and developments

Profiling is based on the quarterly analysis report and the defined legal obligations.

### Recent overview of statistics and research

In Luxembourg, the criminal investigation department makes a quarterly analysis report on the Integrated Border Management (IBM).

## 2. Crime strategy and coordination

### Objectives of the crime strategy

Ensure the application of the IBM concept at the national level:

- organise major operations in the field of illegal immigration in the national level.
- ensure the transmission of quarterly analysis reports to the regional departments.

#### **Role of prevention in the crime strategy on state/regional/local level**

At the moment we have a service regulation in this area (IBM), but no special concept in the area of prevention.

#### **Implementation of the policy (which level is responsible for the implementation and how is the implementation coordinated?)**

The Luxembourg Police, Judicial Police Department, in cooperation with the Ministry of Foreign Affairs, is responsible for implementation of the IBM.

We have attached our National Concept "Integrated Border Management" Service Manual to the questionnaire.

#### **Stakeholders (working groups, specialised agencies, partners, etc)**

The Luxembourg Police has a department: "Foreign Police" which is under the jurisdiction of the Criminal Police and which is responsible for the illegal trafficking of human beings. This department also operates under the auspices of the Ministry of Foreign Affairs.

#### **Participation in European/ international networks, working groups, etc.**

Frontex is an international partner in this field and also keeps statistics.

### **3. Good practices**

#### **Overview of recent good practices, prevention programs, etc.**

Border control at the borders as well as within the national territory must contribute to the fight against illegal immigration, cross-border crime and trafficking in human beings, as well as the prevention of any threat to the internal security, public order and public health.
