## Possible Partners of a Security Forum

### Security partners

# Process for Security Fora

1. Hear and address concerns and identify problems

2. Determine concerned security partners together and communicate the planned security panel for the purpose of transparency (via security partners)

3. Implement security panel

together with concerned persons who are ready to participate actively in order to  
a) Establish a common understanding of the issue and  
b) Develop approaches cooperatively

4. Agree on competences and measures

who will take over which tasks,  
timeframe – documentation and communication

5. Implement agreed measures

take measures with regard to the field of competence –  
document results

6. Communicate results

internally and externally
