Background

This EUCPN Work Programme succeeds that of March 2015. The Work Programme 2016 is in accordance with Article 4 of the Council Decision 2009/902/JHA and Article 12 of the Rules of Procedures for the EUCPN. As foreseen in the Multiannual Strategy for the EUCPN, this document defines the activities of the Network to be completed in 2016 in order to promote the achievement of the strategic goals, namely:

- A) To be a point of reference for the target groups of the Network.
- B) To disseminate qualitative knowledge on crime prevention.
- C) To support crime prevention activities at national and local level.
- D) To contribute to the EU policy and strategy of crime prevention and to contribute to various aspects of crime prevention at the EU level in respect of strategic priorities of EU.

The target groups of the EUCPN are:

- Practitioners and policymakers at the local level
- Practitioners and policymakers at the national level
- Relevant agencies, organisations, working groups etc. at European Union level

Funding

The EUCPN currently relies on the following funding sources:

- Member States who fund projects of interest to the Network
- EU financial programmes managed by the Commission (ISF – Internal Security Fund - Police, Hercule III Programme 2014-2020, Daphne, Horizon 2020 etc.)
- Work Program Fund – an internal fund established by voluntary contributions from Member States

The present Trio

The present Trio

The incoming EU Trio Presidency of the Netherlands, Slovakia and Malta have chosen the topic ‘Organized Crime’ as its overall theme.

During 2016:

- The Netherlands will focus on illegal trafficking of firearms. As the European Commission stated in the European Agenda on Security 2015-2020, recent terrorist attacks have focussed attention on how organised criminals are able to access and trade illegal firearms. This is a cross-border problem, given that many illegal firearms in the EU have been imported from neighbouring countries. Therefore, cooperation between member states and a common approach are of major importance in preventing illegal trafficking of firearms.

- Slovakia will focus on organized crime targeting Elderly people

Slovakia aims to focus on the prevention of crimes committed on elderly people, because the Slovak police statistics reveal an increase of the phenomenon and these crimes are often committed by organized crime groups. Elderly people are often victims of economic, property and violent crimes.

This topic is also related to the European priorities – Directive 2012/29/EU establishing minimum standard of the right, support and protections of the victims of crime.

The Dutch Presidency, January 2016 – June 2016

The Dutch Presidency, together with the incoming Presidency Trio (Slovakia and Malta), the Secretariat and EUCPN partners intends to continue the work initiated by the previous Presidencies, especially their efforts drafting the Multi Annual Strategy (MAS) 2016-2020. The new MAS gives an excellent overview of the strategy, the goals and the focus areas of the network for the years to come. The Netherlands intends to make a start with the implementation of the goals mentioned in the new MAS and the subsequent yearly Work Programmes.

The Presidency Trio will focus on Organised Crime during their Presidencies. This is one of the three topics (together with Cybercrime and Terrorism) the European Commission indicates as key priority in their European Agenda on Security 2015 – 2020. Within this topic, the Netherland will focus on the illegal trafficking of firearms.

Slovakian Presidency, July 2016 - December 2016

Slovak Presidency, together with Trio, intends to continue the implementation of the conclusions and recommendations of the Evaluation report of the EUCPN, focusing on improving its functionality and visibility.

The Slovak Presidency will:

- Organize the Best Practice Conference (BPC) and the European Crime Prevention Award (ECPA) ceremony, which are planned to take place in December 2016;
- Work on the development of a manual on the prevention of crimes committed on elderly people to ensure the circulation of best practices on this topic
- Commence a draft of the annual report together with the Dutch Presidency.

Activities in the Network in 2016

When reading this programme, you will come across four different levels of activity:

- 1) **Action:** Action points decided upon in the Multiannual Strategy (overview in annex 1) (and the recommendations arising from the Report of the evaluation of the EUPCN (2012)).
- 2) **Task:** Activities necessary to implement the action points, further development of the Network itself, or activities to prepare future action points, tasks or projects.
- 3) **Project:** Ongoing or new crime prevention activities in specific Member States and ongoing or new activities in several Member States (overview in annex 2).
- 4) **Secretariat task:** task for the EUCPN Secretariat outlined in the application for the project “The development of the observatory function of the European Centre of Expertise on Crime Prevention within the EUCPN” or in the Multiannual Strategy (overview in annex 3).

A) To be a point of reference for the target groups of the Network

Action: *Updating a database of contacts of the target group members in line with priorities of the policy cycle*

- **Task:** The Member States will update their contact list according to the priorities of the policy cycle

Action: *Continue and improve communicating with the target groups*

- **Secretariat task:** The Secretariat will issue six newsletters in 2016: three during the Netherlands presidency and three during the Slovakian presidency
- **Task:** The Secretariat will keep the website up to date and optimise its current functions with the assistance of the Board. The Member States will make sure that the Secretariat receives regular updates about the information and contacts provided.
- **Task:** the EUCPN will put more emphasis on promoting the network on social media

Action: *Updating the application of the uniform feedback tool for EUCPN communication channels and events*

- **Secretariat task:** The Secretariat will present the results from the Best Practice Conference 2015 to the Board to reflect upon and decide whether the results call for further action in relation to future events.
- **Secretariat task:** The Secretariat will evaluate the Best Practice Conference 2016.

Action: Increase the cooperation with international institutions

- **Task:** The Netherlands will invite relevant institutions to their conference on 13 April 2016.
- **Task:** The Slovakian Presidency is going to invite representatives of international institutions to the BPC-ECPA
- **Task:** Representing the EUCPN on relevant meetings organized by the stakeholders
- **Secretariat task:** The Secretariat will organise stakeholders meetings. The stakeholders meetings aim for closer relationships and exchange with stakeholders with an active involvement of all the parties to increase the coherence between policies and approaches on crime prevention on the EU-level (EU partners and EUCPN).
- **Task:** increased cooperation with Europol will be discussed

Action: Assuming the funding is available, the EUCPN Secretariat should be further strengthened (REC13)

- **Task:** The National Representatives will be encouraged to increase their input in the work of the EUCPN. This issue will be included on the agenda of the Board Meetings and National Representatives will be invited to discuss how to solve the difficulties raised or encountered.
- **Task:** The EUCPN Secretariat and Belgium as project manager will draft a proposition for the next EUCPN grant. This will be presented to the Executive Committee and the Board for input and feedback. Eventually it will be send to the European Commission as a respond on a call for projects.
- **Task:** The EUCPN Secretariat and the Informal Network for the Administrative Approach will identify actions which can be taken in order to strengthen both networks and increase their cooperation.
- **Task:** in light of the new grant which will result in more tasks for the EUCPN Secretariat, the presidencies will put a possible renaming of the Secretariat on the agenda.

B) To disseminate qualitative knowledge on crime prevention

1. Projects:

Title	Lead	Purpose	Timing
1. The development of the observatory function of the European Centre of Expertise on Crime Prevention within the EUCPN	Belgium	To improve the working of the EUCPN by reinforcing the working of the EUCPN Secretariat around 5 important pillars which will lead the Secretariat towards an improved Expertise Centre.	July 2014 – June 2016
2. Economic Crime and Corruption in Greece	Greece	To prevent and fight financial and economic crime and corruption through the implementation of five actions.	May 2014 – May 2016
3. Prevention Project Dunkelfeld (PPD)	Germany	to reduce the frequency of child sexual abuse by a region wide establishment of professionally qualified, preventive outpatient therapy offers, directed at persons with a pedophilic/hebephilic preference in the Dunkelfeld.	Started in 2005
4. Improving Poland's capacity to prevent trafficking in human beings	Poland	To raise awareness of the risks connected to trafficking in human beings among Polish society by the usage of tools tailored for different target groups	Start in 2015 – April 2016
5. Improvement of the national legal framework to bring in line with Council of Europe standards and strengthening the capacity of competent institutions involved in cases of GBV including DV	Bulgaria	To improve the legal framework in the field of GBV and domestic violence and to strengthen the institutional capacity through improved skills of the experts that deal with victims of domestic violence	October 2014 – February 2016
6. Project for collaboration between Spanish national police corps and Spanish federation for down syndrome	Spain	To improve the protection and safety of the group of persons with down syndrome and other types of intellectual disability and to promote their school, labour and social integration	2015-2017

7. Radio Campaign	Cyprus	To promote the drug telephone help-line	2015
8. Print promotional materials anti-drugs	Cyprus	To provide the people with reliable information about drug substances	2015
9. Effective Monitoring, Investigation and Countering of Violent Extremism in Cyberspace	Slovakia	To mitigate risks posed by spreading of extremist propaganda in the cyberspace and to reduce the risk of radicalisation among most vulnerable groups. Main outcomes of the project are: IT tool for police officers, certified training course, increased regional cooperation, public campaign on countering extremism in cyberspace.	July 2014 – June 2016
10. Preventive and awareness campaign Red Ribbons	Slovakia	Prevention and education of secondary school students, elementary, special and re-education facilities in Slovakia on HIV / AIDS, in the area of substance and non-substance addictions and human trafficking	2007 – 2015
11. Improving crime victims' access to services and creating contacts points for victims of crime	Slovakia	Create analytical unit for analyzing needs of crime victims in order to receive appropriate protection and support and to prepare legislative proposals and preparation of analysis which could be used on the national level.	February 2016 – January 2019

12. The project of prevention of juvenile delinquency and criminality	Slovakia	To significantly decrease cases of risk behaviour of our clients which can be solved mostly by outdoor social work directly in the socially disadvantaged community followed by low-threshold treatment, preventive activities at schools in the form of experiential learning, communication of positive patterns, indicated (tertiary) prevention among individuals with different levels of deterioration of perception of accepted social norms or who possibly already committed a criminal offense.	January 2016 - December 2016
13. Conception European Methodical Centre	Slovakia	The main objective of methodical function of the Slovak headquarters of EMC will be REAL CHANGE of social situation of citizens in a sense of supporting and developing citizens' well-being in terms of real possibilities of individual countries by the use of all legal matters which that are available to non-governmental and nonprofit organizations (III. sector) with the intention of equalizing social status of EU citizens as well as eradicating social conflicts.	as soon as possible - begin + 6 years
14. Coordinating Methodical Centre for Prevention and Elimination of Violence against Women and Domestic Violence	Slovakia	To establish the Coordinating-Methodical Centre for Prevention and Elimination of Violence against Women and Domestic Violence (CMC).	February 2015 – April 2017
15. SOS-Alert Solution - Cross-border cooperation project for enhanced detection and interception of illicit CBRN materials on the Slovakian-Ukrainian border	Slovakia	To enhance the capabilities of the Presidium of the Police Force of the Slovak Republic (PPF) and the State Border Guard Service of Ukraine (SBGS) and their respective partners at the border in specific areas related to CBRN threats.	15 April 2015 – 30 April 2017

16. Coordinating Methodical Centre for gender based and domestic violence	Slovakia	To create the Coordinating Methodical Centre (CMC) which will focus to develop, implement and coordinate a comprehensive national policy for the area of prevention, intervention and elimination of violence against women.	19 September 2014 – 30 April 2016
17. Creation of law enforcement contact points network	Slovakia	Improve cooperation among law enforcement state agencies in the European environment.	March 2016 – September 2017
18. Cyber jungle	Poland	The "Cyber jungle" project is aimed at the younger Internet users, their carers as well as people taking part in their education and attitudes shaping. Its mission is to improve the overall security of the Internet users, especially those who are not properly prepared for it.	January 2016 – December 2016
19. Cyber-violence - How to counteract it?	Poland	The Project is dedicated to students, students' parents, teachers and principals of junior secondary schools within the Elbląg municipal commune.	1 st January 2016 - 31 st December 2016
20. Become a guardian angel!	Slovakia	Website www.anjelistrazni.sk where "protégé" can register before travelling abroad and connect his/her account with his/her social networks. His/her chosen friends or relatives ("guardian angels") are warned if the protégé has not been active on social networks or he has not clicked on the sign „I am OK“ for more than 24 hours.	November 2015 - 2016
21. Cost & Impact of Cybercrime in Belgium	Belgium	To reach an objective, realistic and up to date picture of cybercrime in Belgium and its evolution over time.	1 st June 2014 – 28 th February 2018
22. European Prize for Social Integration through sport SPORT +	France	To tackle cross-border threats to the integrity of sport, such as doping, match-fixing and violence, as well as all kinds of intolerance and	1 st January 2015 – 31 st December 2016

		discrimination, through the exchange of practices and the creation of an European Prize for Social Integration through sport	
23. European local Authorities against extremism LIAISE 2	France	"European local authorities against extremism" wants to prevent radicalisation leading to terrorism and violent extremism. Its overall goal is to strengthen the capacity of European towns, cities and regions to prevent and deal with violent radicalisation.	5 th January 2016 – 4 th January 2018
24. JUST and SAFE CITIES FOR ALL - LOCAL ACTIONS TO PREVENT AND COMBAT RACISM AND ALL FORMS OF INTOLERANCE	France	Prevent and combat racism, xenophobia, homophobia and other forms of intolerance	14 th September 2015 – 13 th September 2017
25. I'M HERE PROGRAM	Portugal	To maximize all the situations related to child safety on public spaces. Increasing the surveillance, giving a extra safety solution for parents and child tutors.	Every summer
26. Special Program SIGNIFICANT BLUE.	Portugal	Safety of persons with intellectual disabilities and / or multiple disabilities and those who interact with them.	6 th September 2013 – ...
27. I do has FALCO says.	Portugal	Short stories to promote safety and fomenting of civics and citizenship among children between 5 and 10 years old, using FALCO - PSP mascot.	October 2014 - ...

2. Actions and tasks associated with Strategic Goal B:

- **Task:** The Dutch Presidency will focus on illegal trafficking of firearms. As the European Commission stated in the European Agenda on Security 2015-2020, recent terrorist attacks have focussed attention on how organised criminals are able to access and trade illegal firearms. This is a cross-border problem, given that many illegal firearms in the EU have been imported from neighbouring countries. Therefore, cooperation between member states and a common approach are of major importance in preventing illegal trafficking of firearms.

- **Task:** Slovakian Presidency will focus on organized crime targeting Elderly people. One of the most vulnerable groups of population which needs to be protected by prevention are the elderly people. They can become more easily victims of crime, especially because of their credulity, kindness, willingness to help, defencelessness, bad health and also for their high age. According to Slovak Criminal Code, the elderly person is the person older than 60 years and it belongs to protected persons.
Seniors in advanced age often become victims of crime and ill-treatment, what is proved by published cases of (often brutal) violence committed by foreign persons, but also by relatives. Many crimes and lot of violence committed on elderly people remains hidden and occurs in various environments, special need facilities and families.
Elderly people are victims of fraud, embezzlement, theft, robbery, coercion too. The society should ensure that elderly people are adequately informed about the measures that reduce the risk of crimes committed on them.

Action: *Review of victim surveys and research on comparable criminal statistics and fear of crime*

- **Secretariat task:** The Secretariat will produce a new European Crime Prevention Monitor report in 2016. This report will summarise data from different crime statistics, victim surveys and fear of crime studies.

Action: *Development of recommendations on approaching challenges of crime problems by target groups*

- **Task:** Development of a manual on illegal trafficking of firearms (during the Dutch Presidency)
The Secretariat will, in cooperation with the Netherlands Presidency, organise a workshop with experts specialised on this theme during the Netherlands Presidency, and will provide recommendations that can be disseminated among target group members.

- **Task:** Development of a manual on Organized crime targeting Elderly people (during Slovakian Presidency)

The Secretariat will, in cooperation with the Slovakian Presidency, organise a workshop with experts specialised on this theme during Slovakian Presidency, and will provide recommendations that can be disseminated among target group members.

Action: Presidencies who do not need to organize the BPC-ECPA will continue organizing thematic seminars about their chosen topic

- **Task:** Following the Board meeting scheduled on 12 April 2016, the Netherlands will organise a conference on 13 April 2016 in Amsterdam. The main topic of this conference will be the illegal trafficking of firearms. Furthermore the Dutch Centre for Crime Prevention and Safety (CCV) will present some best practices preventing organised crime in the Netherlands.

Action: *The EUCPN should further develop its range of outputs to increase the capacity to respond to key stakeholder needs (REC4)*

- **Task:** The Member States will proactively communicate with local practitioners and within Member States, in general, and where possible, produce summaries of key materials in the languages of MS and include on EUCPN website (REC5).
- **Secretariat task:** The Secretariat will engage with local practitioners in the course of developing toolkits or exchanges of good practices.
- **Secretariat task:** The Secretariat continues to engage with relevant institutions and respond to requests for inputs.

C) To support and facilitate crime prevention activities at national and local level

With a view to increase the preventive approach in Europe, the EUCPN will support policy makers and practitioners at national and local level. The EUCPN Secretariat is ready to assist National Representatives with knowledge and to support funding applications.

Action: *Collecting and uploading key documents that were earlier translated in national languages*

- **Task:** The Presidency in office will invite National Representatives to collect proper documents to be uploaded onto the EUCPN website.

Action: *Translation of event conclusions and recommendations*

- **Task:** the Netherlands and Slovakian Presidencies will invite National Representatives to find resources for the translation of event conclusions and recommendations of the Best Practice Conference into their national language, to be uploaded onto the EUCPN website with the support of the Secretariat.

Action: *A key EUCPN priority should be to produce good practice material for crime prevention practitioners at a regional and local level*

- **Task:** Member States should translate, where practicable, a small number of key, practical materials for eventual inclusion on EUCPN website, as well as local websites. The Dutch and Slovakian presidencies will invite National Representatives to do so.

Action: *Development of recommendations on the impact of context on crime prevention*

- **Secretariat task:** The Secretariat will start up the work on the Good practice guidelines transferability by identifying/collecting existing guidelines on this topic. The aim of the Good practice guidelines transferability is to ensure the quality and comparability of good practices, tips and tricks/do & don'ts when translating a good practice to another context will be elaborated.

Action: *Providing support and evaluations to Member States wanting to adapt projects being ECPA winners*

- **Task:** The Secretariat provides support upon request of Member States.

Action: *The funding of EUCPN supported activities should be made more transparent*

- **Task:** The funding of EUCPN supported activities will be included in the Annual Report and Work Programme.

D) To develop various aspects of crime prevention at EU level in respect of the EU strategy of crime prevention

Action: *Development and implementation of a Network management plan*

In 2012 an external evaluation of the EUCPN was carried out and the Commission submitted a report to the EU Council which sets out the results of the evaluation and its recommendations. During Ireland's Presidency in the beginning of 2013, the Action plan responding to the evaluation of the EUCPN was finalised. Lithuania's Presidency, together with the Trio and EUCPN partners, started the implementation of the Action Plan. This Action plan was updated and further implemented during 2014 and 2015.

- **Task:** The Netherlands and Slovakia assure, together with respective Trio, ExComm and the Secretariat, further monitoring of the implementation of the Action Plan. Furthermore the action plan has been added to the Multi-annual strategy 2016-2020 which serves as a basis for this Work Programme.

Action: *The EUCPN has decided to systematically align its priorities with the agreed EU priorities as regards the fight against crime (REC1)*

- **Task:** The trio will choose one EU priority to work on during 18 months. The presidencies within the trio will then translate this priority to local needs.
- **Task:** The Commissions' annual working programme will be put on the agenda during the Dutch Presidency for discussion at the Executive Committee and Board Meeting in December following its adoption by the Commission.
- **Task:** The Presidencies, with the help of the Secretariat, will include on agendas of upcoming Board Meeting relevant developments in Working Group meetings (LEWP, Genval, COSI...). National Representatives will be canvassed for agenda topics in advance of Board Meetings.
- **Task:** The EUCPN secretariat, together with the executive committee, will take the lead in the inclusion of EU priorities in the discussion on the future of the Network.

Action: *The EUCPN should develop its role in making inputs to EU and Member State policymaking in the crime prevention field (REC2)*

- **Task:** The Presidencies will invite the Board to identify one relevant EU and Member State topic per year addressing Genval and the European Commission with results.
- **Task:** the Presidency in office will inform Genval about the main activities and recommendations proposed by the EUCPN.

- **Task:** the Presidency in office, the Member States and the EUCPN-secretariat will proactively increase circulation of information on EUCPN activities/projects on national and EU-level.

Action: *A more strategic approach to determining EUCPN activities, and strengthening its role in providing inputs to policymaking at the EU and Member State level is needed therefore the EUCPN Secretariat will provide:*

- *An understanding of EU trends and across Member States with regard to crime;*
- *An overview of Member States' crime prevention institutional set-ups, strategies and policies (some of this information is already available);*
- *To the extent that can be assessed, an assessment of what impact crime prevention measures have on different types of criminal activity.*

- **Task:** The Secretariat will continue its collaboration with Eurostat.
- **Task:** The Secretariat will further develop and circulate research and outcomes. The Member States will provide the Secretariat with relevant research.
- **Secretariat Task:** An impact measurement will be produced and compared to the results of 2012 by the Secretariat.
- **Task:** The Board will annually include/update on the website an overview of Member States' Crime prevention institutional set-ups, strategies and policies.

Action: *Developing closer relationships with other European and international entities in the crime prevention field should be intensified (REC15)*

- **Task:** the Secretariat and the Presidency in office will identify and involve, depending on topics and circumstances, other crime prevention bodies in EUCPN activities.
- **Task:** the Secretariat and the Board will identify the events and other activities organised by the other organisations. The Secretariat and the Presidency, if deemed appropriate, may look for an invitation to these activities and give the possibility to the National Representatives to participate and give a presentation of the activities of the EUCPN with the aim to raise its visibility.
- **Task:** Feedback on these activities will be provided in the EUCPN Annual Report.
- **Secretariat task:** The Secretariat will organize a stakeholder meeting.

Annex 1 Work Programme Projects

Project 1

Project title: **The development of the observatory function of the European Centre of Expertise on Crime Prevention within the EUCPN**

Main theme: Improving the working of the EUCPN by reinforcing the working of the EUCPN Secretariat around 5 important pillars which will lead to secretariat toward an improved expertise centre.

Project purpose and outcome:

Support the working of the Board by an improved pursuit of the EUCPN- secretariat.

Project submitter (Member State): Belgium

Project leader(s): Belgium

Project partner(s):

- Co-beneficiaries: Italy and Latvia
- Project Partners: IE; FI; PL; EE; HU; ES; BG; UK; DE

Project description:

In the light of the self-evaluation of the project Towards a European Centre of Expertise on Crime Prevention (CP), the feedback of the Board members of the European Crime Prevention Network (EUCPN), the target groups and stakeholders & the results of the external evaluation of the EUCPN, we want to reinforce the working of the EUCPN Secretariat by developing the project to enhance the strengths, to improve the weaknesses & to fully exploit the opportunities. To develop the EUCPN Secretariat to a real EU Crime Expertise Centre, we plan to build the project on 5 pillars:

- Pillar 1: Strategy & policy
Goal: to develop various aspects of Crime Prevention (CP) at EU level in respect of the strategic priorities of EU & to increase the coherence between policies and approaches on CP of the EU partners and EUCPN.
- Pillar 2: Research & monitoring
Goal: disseminate qualitative knowledge on CP & establish links between the academic world and the policymakers & practitioners
- Pillar 3: Practices & tools
Goal: to support national & local policymakers and practitioners in their daily work

- on CP
- Pillar 4: Communication
Goal: to be a point of reference & to increase the visibility of the EUCPN and its work
 - Pillar 5: Administrative support
Goal: to support the Chair & Board to facilitate efficient policy development and im

Objectives project:

- Developing various aspects of crime prevention at EU-level in respect of the strategic priorities of the EU
- Establishing a better knowledge-base on crime prevention
- Developing outputs and good practice material to support national and local policymakers and practitioners
- Being a point of reference for the target groups of the Network
- Increasing the visibility of the EUCPN, the Secretariat and their work
- Supporting the EUCPN chair, executive committee in the development and implementation of efficient prevention policies

Start and end project:

1 June 2014 - 30 June 2016

Funding (total budget and type of funding (e.g. ISEC, EUCPN Fund,...)):

Project 2

Project title: Economic Crime and Corruption in Greece

Main theme: Prevention of Financial and Economic crime in Greece - Economic Crime and Corruption in Greece (ProFECiG)

Project purpose and outcome: This project aims to the prevention and fight against financial and economic crime and corruption. The project is implemented through five actions with the cooperation between the National and Kapodistrian University of Athens and the Hellenic Ministry of Citizen Protection - through the Hellenic Police structure.

Project submitter (Member State): Greece

Project leader(s): National and Kapodistrian University of Athens

Project partner(s): Hellenic Ministry of Public Order & Citizen Protection

Project description:

- Action 1: Coordination and cooperation with Hellenic Police in mission that promotes research for the values of legality, integrity, transparency and accountability in Greek Public Administration. A field-work research will be implemented in all prefectures of Greece.
- Action 2: Overview of national (Greek) legislation and applied criminology approaches in comparison with EU legislation and approaches, definition of new methods and tools necessary for strategic prevention and fight against economic crime and corruption, exploitation of the field work research results.
- Action 3: Training seminars to police officers offered by the Centre for Penal and Criminological Research (UoA) in cooperation with Hellenic Police.
- Action 4: EU Legislative Observatory, world legal monitoring problematic and particularly to the content that is usually given on economic crime and corruption by the institutions. In this aspect new methods and tools the function of the Legal Aid Clinic (for specific causes) will be developed in cooperation with: Centre for Penal and Criminological Research (UoA), Hellenic Police and Audiovisual Laboratory (UoA), to diffuse relevant reliable information for the public and private sector and society.
- Action 5: Development of Internet Portal & Information Legal Observatory.

Objectives project:

- Exchange information beyond a classic secure hit/no hit approach through cross-check of databases in compliance with data protection requirements.
- Analyse main trends of economic crime and corruption (most vulnerable areas) their

- causes and their effects on the society.
- Identify new methods for gathering and measuring relevant statistics related to economic crime and corruption.
 - Improve exchange of information and professional standards.
 - Stimulate, promote, improve and develop on a legislative basis the following:
 - horizontal methods and tools necessary for strategically preventing and fighting crime and guaranteeing security and public order
 - public-private partnerships for economic crime and corruption prevention
 - best practices in crime prevention
 - analyse comparable statistics
 - applied criminology methods for the detection and prevention of economic crime and corruption
 - financial forensics and analysis in view to dismantle criminal network, bring prosecutable evidence before the judge and detect criminal activity
 - best practices for the protection of and support to witnesses
 - best practices for the protection of crime victims
 - expertise in financial analysis
 - methods for tracing assets derived from crime
 - training materials
 - Training of police financial investigators and financial criminal analysts and should and stimulate, promote and develop horizontal methods and tools necessary for strategically preventing and fighting crime and guaranteeing security and public order such as the work carried out in the EU Crime Prevention Network, public-private partnerships, best practices in crime prevention, comparable statistics, applied criminology and an enhanced approach towards young offenders .
 - Develop publicity so as to dismantle criminal network, and detect criminal activity.
 - Promote and develop best practices for the protection of and support to witnesses .

Project outcome:

- Reduction of corruption and economic crimes in public & private sector
- Upgrading of public administration
- Implementation of EU legislation in Greece
- Implementation of Member States' best practices
- Upgrading of the Hellenic Police in the field of prevention and fight against of economic crime and corruption
- Upgrading of research/investigation and legal services and cooperation between UoA and Ministry of Citizen Prot
- Upgrading of cooperation between Greece and EU in the framework of the Hellenic Presidency of the EU in 2014
- Cooperation development among member-states, for the implementation of best practices for public administration as measures against corruption

The outputs will be the following:

- Training courses (64 seminars) – seminar certificate
- Training materials (5 handbooks)
- Video-spots for TV (2)
- 30minutes video education-programme (16)

- Audio books (16)
- E-books (8)
- Press-realise (24)
- Info bulletin (64)
- Case-studies (4)
- One Library (1) in Hellenic Ministry of Citizen Protection for classification of books, laws and regulations, etc. related to economic crime and corruption
- EU Legislative Observatory (1)
- Internet Portal & Information Legal Observatory (1)

Start and end project: May 2014 – May 2016

Timescales and key milestone dates:

- Action 1: coordination and cooperation with Hellenic Police in mission that promotes research for the values of legality, integrity, transparency and accountability in Greek police Administration. A field work research will be implemented in all prefectures of Greece. (Months 1-24)
- Action 2: Overview of national (Greek) legislation and applied criminology approaches in comparison with EU legislation and approaches, definition of new methods and tools necessary for strategic prevention and fight against crime and corruption, exploitation of the field work research results. (Months 1-24)
- Action 3: Training seminars to police officers. (months 5-24)
- Action 4: EU Legislative Observatory. (months 5-24)
- Action 5: Development of Internet Portal & Information Legal Observatory. (months 5-24)

Funding (total budget and type of funding (e.g. ISEC, EUCPN Fund,...)):

Project 3

Project title: Prevention Project Dunkelfeld (PPD)

Main theme:

Reducing the frequency of child sexual abuse.

Project purpose and outcome:

This project is directed at people seeking therapeutic help because they feel sexually attracted to children and adolescents and/or who use child abusive images. Within the course of therapy, the person concerned is offered support concerning the prevention of child sexual abuse in the form of hands-on contact or 'online abuse' by using or producing child abusive image material.

Project submitter (Member State): Germany – Federal Ministry of Justice

Project leader(s): Institute of Sexology and Sexual Medicine at the University Hospital Charité – Campus Mitte in Berlin

Project partner(s): other German universities

Project description:

The Prevention Project Dunkelfeld (PPD) provides confidential treatment free of charge for individuals who have a partial or exclusive sexual preference in terms of pedophilia or hebephilia and seek therapeutic help.

Objectives project:

The overall goal of the project is to reduce the frequency of child sexual abuse by a regionwide establishment of professionally qualified, preventive outpatient therapy offers, directed at persons with a pedophilic/hebephilic preference in the Dunkelfeld. Furthermore, the project aims at raising the problem-awareness in the users of child abusive images and their relatives and to increase the readiness of accepting therapeutic help.

Project outcome:

During the course of the project, therapy results are systematically being collected and scientifically evaluated. By this means the project wants to show, that individuals with a sexual preference towards children and users of child abusive images can be helped by an

expert diagnosis and professional therapy to refrain from assaulting children. Furthermore it is this project's goal to inform the community about the topic pedophilia/hebephilia and to encourage an objective discussion within in our society.

Start and end project:

The project was started 2005 in Berlin. Meanwhile there are several locations in Germany.

Timescales and key milestone dates:

The aim is a region wide establishment of professionally qualified, preventive outpatient therapy offers.

Funding (total budget and type of funding (e.g. ISEC, EUCPN Fund,...)):

The PPD is supported by the Federal Ministry of Justice, business concerns and a foundation.

www.dont-offend.org (this website contains a contact person and a contact form).

Project 4

Project title: Improving Poland's capacity to prevent trafficking in human beings

Main theme: Raising awareness of the risk connected to trafficking in human beings among Polish society by the usage of tools tailored for different target groups

Project proposer: Poland – Ministry of the Interior

Project leader(s): Poland – Ministry of the Interior

Project partner(s): Council of Europe

Project scope: Trafficking in human beings is a very complex phenomenon, assuming different forms. This fact has been taken into account on the stage of developing the project. The various actions are addressed to different target groups, starting from children at schools through young people ready to take up work to entrepreneurs and clients who might use (intentionally or unintentionally) the results of THB victims work. The project is addressed mostly to Polish citizens as another awareness raising project directed at foreign nationals was carried out by International Organization for Migration in partnership with the Ministry of the Interior. The objectives of the project will result in the implementation of tasks envisaged in the *National Action Plan against Trafficking in Human Beings for 2013-2015*.

The project will be implemented by the Migration Policy Department of the Ministry of the Interior. The institution chosen for the project promoter is responsible for the coordination of national policy against THB and facilitating the work of the inter-ministerial Committee for Combating and Preventing Trafficking in Human Beings.

The Council of Europe was chosen for the project partner as the organisation has been putting considerable efforts into the fight against trafficking in human beings since late 1980. In 2005 the CoE has adopted the *Convention on Action against Trafficking in Human Beings*. The convention was complemented by the introduction of the Group of Experts on Action against Trafficking in Human Beings (GRETA), serving as a monitoring mechanism for the convention.

Project outcomes: The project is to produce the following outcomes:

1. **Public opinion poll** presenting updated description of the awareness of trafficking in human beings in Poland, including an awareness assessment of vulnerable groups.
2. **An awareness raising campaign** addressed to people at risk, providing them with relevant information reducing the risks connected to labour migration.
3. **Mobile exhibition** presented across Poland, raising awareness of the risk of trafficking in human beings.
4. **Printing of the CoE's comic strip "You're not for sale"**, proven to be an efficient tool of THB risk awareness raising among young people.
5. **Research study and seminar** on exploring demand reduction strategies for work and services provided by victims of human trafficking. Promoting private sector engagement in combating THB.
6. **Guest lectures organised at Polish universities** raising awareness of THB risk among students.
7. **Redesigning and update of the KCIK (National Intervention and Consultation Centre for Polish and Foreign Victims of Human Trafficking) website**, providing comprehensive and up to date information to both victims (potential victims) of THB and professionals working in the area of THB prevention.

Timescales and key milestone dates:

2015

01/02/03 – Public opinion poll and development of awareness raising campaign main themes, CoE research study, printing the CoE comic strip, redesigning KCIK website.

04/05/06 – Awareness raising campaign and mobile exhibition

07/08/09 – Mobile exhibition,

10/11/12 – Lectures of CoE experts at Polish universities

The project is to be completed by April 2016.

Funding issues: The project is co-financed from the funds of the Norwegian Financial

Mechanism 2009-2014 under the Programme „PL-15 – Schengen Cooperation and Combating Cross-border and Organised Crime, including Trafficking and Itinerant Criminal Groups”, Programme Area 30.

Project 5

Project title:

Improvement of the national legal framework to bring in line with Council of Europe standards and strengthening the capacity of competent institutions involved in cases of GBV including DV

Main theme:

Domestic and Gender-based violence

Project proposer: Ministry of Justice, Bulgaria

Project leader(s): Ministry of Justice

Project supporter(s): Council of Europe, Ministry of Labour and Social Policy, Ministry of Interior

Project scope:

The main goal of the Project is the creation of a robust legal framework that will ensure the protection of the rights of victims of GBV and domestic violence. The Project also envisage supporting the institutions providing social help and police protection in strengthening their administrative capacity and tools in handling cases of GBV and DV. GBV and DV are problems requiring complex and well-coordinated actions by competent authorities. Despite the accumulated national practice in applying the relevant legislation for the prevention, detection, investigation, protection and assistance to victims of GBV and DV, there are existing difficulties in coordination and admission of significant lapses. This in turn leads to inefficient protection and assistance to victims and violates basic human rights guaranteed in both Bulgarian and international law. Victims of GBV and DV are often subject to re-victimization and diverse interventions by various institutions. There are some cases where the lack of timely intervention and a coordinated approach leads to severe recurrence of violence, which in turn puts victims at greater risk for health and life.

In order to address this issue the first area of the project envisages the elaboration of an assessment of the current Bulgarian legal framework, an assessment of best European practices and how they can be implemented. As result of this activities will be developed a national strategy for reduction of GBV and domestic violence. To ensure the viability of these results will be put in place proposals for the necessary amendments to the national legal framework. The second area of the project will be focus on the strengthening of the institutional capacity through improved skills of the experts that deal with victims of GBV and domestic violence. The training programs conducted during the implementation of the project will improve the professional skills of legal experts of the judiciary system, as well as that of the social workers and police officers. As an essential emphasis in the work of social workers and police officers will be the work with Roma population.

Through the trainings, all participants will gain awareness of and knowledge on gender-based violence matters in order to handle cases of such violence with professional skills and competence.

Project outcomes:

1. Improvement of the legal framework in the field of GBV and domestic violence in line with European practice and the Council of Europe Convention on preventing and combating violence against women and domestic violence
2. Strengthening of the institutional capacity through improved skills of the experts that deal with victims of domestic violence

Timescales and key milestone dates:

Implementation period - October 2014 – February 2016

October – December 2014

- Assessment of the EU legislation and CoE Conventions in the field of domestic violence
- Assessment and gap analysis in Bulgarian legal framework, currently in place, dealing with DV
- Comparative analysis between the Bulgarian legal framework and best European practices (including the Council of Europe Convention on preventing and combating violence against women and domestic violence)

January-February 2015

- Development of a National Strategy for reduction of GBV and DV
- Workshops with Bulgarian magistrates and other stakeholders to discuss and fine-tune the legislative proposals

October 2014 – March 2015

- Elaboration and publishing of a Handbook for Social Workers on detection of and dealing with cases of GBV and DV

April – December 2015

- Conducted 6 training workshops for Social Workers

October 2014 – May 2015

- Elaboration and publishing of curriculum for training of police staff
- Elaboration and publishing of Trainer's Manual for trainers
- Elaboration and publishing of Guidebook for work on cases related to crimes based on GBV

Funding issues:

85% of the project is co-financed by the Norwegian Financial Mechanism and 15% in national co-financing.

Requested project grant rate: 267 305,00

Project 6

Project title:

PROJECT FOR COLLABORATION BETWEEN SPANISH NATIONAL POLICE CORP AND SPANISH FEDERATION FOR DOWN SYNDROME

Main theme:

PROTECTION FOR PEOPLE WITH DOWN SYNDROME

Project proposer: Spanish National Police.

Project leader(s): Spanish National Police.

Project supporter(s): Spanish Federation for Down Syndrome.

Project scope:

- To provide specific formation for adults focused on topics related to the protection against the abuse and crimes that could be committed to those people with down syndrome and other intellectual disability.
- To provide formation to young people and children in educational centres with the purpose of sensitizing the children and young people on topics related to the protection against the abuse and the crimes that could be committed to those people with down syndrome and other intellectual disability.
- To establish channels of collaboration with the police to manage those topics that affect persons with down syndrome and other intellectual disabilities.
- To facilitate the participation of this group in another type of complementary activities such as police exhibitions, solidary calendars, etc.

Project outcomes:

To improve the protection and safety of the group of persons with down syndrome and other types of intellectual disability and to promote his school, labour and social integration

Timescales and key milestone dates:

2015 – 2017.

Funding issues: NON. Each part provides qualified personnel for information exchange and formation

Project 7

Project title:

Radio Campaign

Main theme: Key issue 3: Fight against Drugs Trafficking – Drug awareness

Project proposer: Drug Law Enforcement Unit

Project leader(s): Sergeant 1212, G. Kokkinos, Cyprus

Project supporter(s): Prevention office - D.L.E.U.

Project scope:

National radio-stations with high ratings by youth.

Project outcomes:

Promotion of the drug telephone help - line “1498”.

Timescales and key milestone dates:

1. Planning the campaign through an advertising agency - second trimester of the year 2015.
2. Implementation of the campaign - third trimester of the year 2015.

Funding issues:

Founded by E.E. and Cyprus Republic

Project 8

Project title:

Print promotional materials anti-drugs.

Main theme: Key issue 3: Fight against Drugs Trafficking – Drug awareness

Project proposer: Drug Law Enforcement Unit

Project leader(s): Sergeant 1212, G. Kokkinos

Project supporter(s): Prevention office - D.L.E.U.

Project scope:

Distribution of the promotional materials to students, members of the National Guard and communities.

Project outcomes:

To provide the people with reliable information about drug substances.

Timescales and key milestone dates:

1. Design of the promotional material - first trimester of the year 2015.
2. Translation of the promotional material in English – second trimester of the year 2015.
3. Printing of the material – third trimester of the year 2015.
4. Distribution of the promotional material.

Funding issues:

Founded by E.E. and Cyprus Republic

Project 9

Project title: Effective Monitoring, Investigation and Countering of Violent Extremism in Cyberspace -EMICVEC

Main theme: Radicalisation and extremism on the Internet

Project purpose and outcome (in two sentences):

The main objective of the EMICVEC project is to mitigate risks posed by spreading of extremist propaganda in the cyberspace and to reduce the risk of radicalisation among most vulnerable groups. Main outcomes of the project are: IT tool for police officers, certified training course, increased regional cooperation, public campaign on countering extremism in cyberspace.

Project submitter (Member State): Slovakia

Project leader(s): Ministry of Interior of the Slovak Republic, Crime prevention department

Project partner(s): Masaryk University, Czech Republic; Jugendschutz.net, Germany;

People Against Racism, Slovakia; eSlovensko, Slovakia

Project description (max. 150 words):

Manifestations of extremism on the internet are evolving rapidly, as well methods and narrative used by extremist groups. Along with these changes increases also professionalism and the ability of extremist groups to use the internet to recruit new followers, spread ideology, organize public events and intimidate their opponents. Therefore, it is necessary that law enforcement officers are able to adequately respond to these changes and use all the means and tools offered by cyberspace for effective monitoring and investigation of extremism. Therefore, EMICVEC project aims to provide law enforcement officers with new tools and skills enabling them to tackle extremism in cyberspace more effectively, increase regional cooperation among law enforcement and counter extremist narratives in cyberspace with counter messaging.

Objectives project (max. 150 words):

The EMICVEC project has four major aims:

1. **Development and implementation of training course for law enforcement officers** aimed to improve IT skills of the police specialists dealing with extremism.
2. **Enhance information exchange among police officers from Germany, Czech Republic and Slovakia** on extremism, support building of informal networks and the exchange of the best practices and methods in preventing and countering violent extremism among law enforcement forces of Germany, Czech Republic and Slovakia.
3. **Strengthen analytical and monitoring capacities** of police force specialists dealing with extremism in Slovakia.
4. **Prevent and mitigate harmful impact of extremist content in cyberspace** by providing appropriate communication tools to the target group

Project outcome (max. 150 words):

1. **Training module for Police force of the Slovak republic**
 - Development and implementation of training module for law enforcement officers and cadets on specificities of extremism in cyberspace and accreditation of the training course
2. **Facilitating transfer of international best practices to national level**
 - Collection of best practises existing in the field of countering extremism on the internet
 - Study visit of multiplicators and practitioners in partners organisation in Germany and the Czech republic
3. **NO HATE - campaign against cyberhate**
 - Development of a complex communication strategy
 - Implementation of preventive activities carried out within the campaign
 - Implementation of innovative tools such as comics, cartoon, facebook applications
 - Development of guide for high school teachers and other multiplicators
4. **IT tools for police officers**

- Development and implementation of a new IT tool for police officers, enabling them to monitor, investigate and analyse manifestations of extremism on the internet more effectively , while increasing their overall IT skills.

Start and end project: 07/2014-06/2016

Timescales and key milestone dates:

-

Funding (total budget and type of funding (e.g. ISEC, EUCPN Fund,...)):

ISEC, 211 000 Euro

Project 10

Project title: Preventive and awareness campaign Red Ribbons

Main theme: prevention and education of secondary school students, elementary, special and re-education facilities in Slovakia on HIV / AIDS, in the area of substance and non-substance addictions and human trafficking

Project purpose and outcome (in two sentences):

The Red Ribbon is the name for a nationwide campaign, running since 2007 and has been increasing (in 2007, 200 schools were involved and in 2014, 665 schools and school facilities in Slovakia were involved in the campaign). The number of participating schools, climb of involvement and feedback from schools and educational institutions from all over Slovakia, highlight the up-to-datedness and interesting issues of the campaign, whose main focus is the prevention and fight against HIV / AIDS by knowledge and education.

Project submitter (Member State): Slovakia

Project leader(s): Secondary school (Gymnázium) of Saint Francis of Assisi, Žilina

Project partner(s):

- ✗ Ministry of Interior of the Slovak Republic
- ✗ District Office, Department of Education in Žilina
- ✗ Country Office of WHO in Slovakia,
- ✗ Town Žilina
- ✗ National Reference Centre for HIV/AIDS Prevention in Bratislava,
- ✗ Mission of St. John in Barberton (RSA),
- ✗ Centre of Microbiology and Immunology of Jessenius Faculty of Medicine in Martin,
- ✗ Department of Public Health of Jessenius Faculty of Medicine in Martin,
- ✗ Constantine the Philosopher University in Nitra – Department of Zoology and Anthropology,
- ✗ Catholic University in Ružomberok – Department of Biology and Ecology,
- ✗ [St. Elizabeth College of Health and Social Work](#) in Bratislava,
- ✗ Department of Healthcare and Social Work of St. Ladislav in Nové Zámky,
- ✗ Doctors for Life International (international organization),
- ✗ FNsP in Žilina,
- ✗ Home – family “Vila Pinia” in Italy,
- ✗ Centre for Drug Addiction’s Treatment in Bratislava,

- ✖ RETEST – Dom na polceste in Bratislava,
- ✖ Re-socialization Facility Z- Návrat in Bobrov,
- ✖ The League for Mental Health in Bratislava,
- ✖ Kruciata in Levoča,
- ✖ Information Centre for the Fight against Human Trafficking and Crime Prevention Košice,
- ✖ OLÚP in Predná Hora,
- ✖ Slovak Catholic Charity in Bratislava

Project description (max. 150 words):

Nationwide preventive and awareness campaign Red Ribbons realizes the tenth year this year. It begins on September 1 and ends on December 1. Schools and school facilities in Slovakia can join it by various activities, for example: by organizing lectures and discussions on HIV / AIDS, on substance and non-substance addictions, or human trafficking; by involvement in various competitions; by projecting the current movie campaigns; by creating "live" red ribbon, etc. On the World AIDS Day (December 1) in Žilina there is held a nationwide meeting of participating schools and school facilities in Slovakia with a planned program (lectures on HIV / AIDS, drug and human trafficking and evaluation of competitions). All information and feedback from participating schools are regularly published on the website www.cervenestuzky.sk

Objectives project (max. 150 words):

- ✖ raising of public awareness of the meaning of December 1 - World AIDS Day through activities in Slovak schools,
- ✖ educational and training Grammar School students in Žilina, students of other schools and school facilities in Slovakia (secondary, primary, special primary schools and school facilities) and the general public on HIV / AIDS,
- ✖ education of students on health care and promoting healthy lifestyles,
- ✖ education of students on the topic of substance and non-substance addiction and diseases associated with them,
- ✖ support the prevention of substance and non-substance addictions and lifestyle-related diseases,
- ✖ support for prevention and education in the field of human trafficking,
- ✖ cooperation with organizations dealing with HIV/AIDS, substance and non-substance addictions,
- ✖ cooperation with organizations dealing with the issue of human trafficking,
- ✖ cooperation with the media.

Project outcome (max. 150 words):

The main quantitative result is the number of participating schools in the various years of

the campaign: 200 schools were involved in 2007, the first year of the campaign. In the second year there were 230 schools, in the third year 300, in the fourth year 340, in the fifth year 435, in the sixth year 470, in the seventh year 520 and in the eighth year, in 2014, there were officially registered 665 schools and school facilities in Slovakia.

The qualitative outputs of the campaign include positive comments and feedback from participating schools and school facilities, general public and the media. Our positive feedback on the campaign is the most valuable indicator of the project's success. Activities of students of schools and school facilities in Slovakia show us the extent of the educational impact of the campaign on students.

Start and end project: 2007 – 2015

Timescales and key milestone dates: (1.9. – 1.12.)

September - start of the campaign, the publication of the current campaign activities, cooperation with the media

October - implementation of selected activities (lectures, competitions, film screenings, discussions with specialists...)

November - implementation of selected activities (lectures, competitions, film screenings, discussions with specialists...), evaluation of competitions

December - the culmination of the campaign, a nationwide meeting, sending of the reports from schools and school facilities to the project leader of the campaign and preparing of an evaluation report

Funding (total budget and type of funding (e.g. ISEC, EUCPN Fund,...)):

- Financing takes place within the development project Health and Safety in Schools supported by MESRS SR and District Authorities - the Department of Education in Žilina, the contribution rate in 2015 is € 5000

- Secondary school (Gymnázium) of Saint Francis of Assisi, Žilina contributes to the

campaign by co-financing, the amount of co-financing in 2015 is € 290

- Campaign is supported by the Town of Žilina - free rental of a large meeting room at MU in Zilina for the meeting on December 1

- guarantors and the project leader of the campaign carry out their activities for free

Project 11

Project title: Improving crime victims' access to services and creating contacts points for victims of crime

Main theme:

The main theme of the national project is to create and strengthen institutional capacity in the field of prevention, help and support for the victims of crime – with focus on the:

- Fasten and simplify the access of the victims to appropriate and adequate social, psychological and legal assistance.
- Development of the standards and processes for accessible and efficient government in the field of assistance for the crime victims

Project purpose and outcome (in two sentences): is to create analytical unit for analyzing needs of crime victims in order to receive appropriate protection and support and to prepare legislative proposals and preparation of analysis which could be used on the national level.

Project submitter (Member State): Slovakia

Project leader(s): Crime prevention department of Ministry of Interior

Project partner(s): Office of plenipotentiary for civil society

Project description (max. 150 words):

By creating and strengthening institutional capacities in the field of crime prevention, protection and unlawful acts victims' support is to create a mechanism of effective and accelerated victims' access to the corresponding social, psychological and legal aid.

Part of the objectives is to setup process standardization for reaching accessible and effective public administration in the field of aid provision for crime's victims on the national level and to train responsible coordinators and their assistants in order to provide sufficient aid and support.

As a part of crime prevention, there are planned several prevention and dissemination activities among project's target groups.

Objectives project (max. 150 words):

- Development of analytical unit to analyze needs and support victims
- Creation of coordinators network for crime's victims
- Methodical regulation and coordination contact units, standards and method's creation and ratification from each topics with focus on the victim's needs
- Cooperation setup
- Training coordinators, assistants and police officers on local and national level
- Development of the contact units database and evaluation of the results
- Preventive activities with selected victims

Project outcome (max. 150 words):

- Coordination network for the crime victims
- Analytical centre
- Development of cooperation and psychological, social and law assistance for the victims of the crime
- Training of trainers for the law enforcement participants
- Trainings for participant from different fields that have contact with the victims of crime (social workers, police officers, NGO's)
- Preventive activities and complex communication campaign using online and offline tools

Start and end project:

02/2016 – 01/2019

Timescales and key milestone dates:

- Development of analytical unit to analyze needs and support victims 02/2016 – 01/2019
- Creation of coordinators network for crime's victims 02/2016 – 01/2019
- Methodical regulation and coordination contact units, standards and method's creation and ratification from each topics with focus on the victim's needs 02/2016 – 12/2016
- Cooperation setup 02/2016 – 01/2019
- Training coordinators, assistants and police officers on local and national level

05/2016 – 01/2019

- Development of the contact units database and evaluation of the results
09/2016-01/2019
- Preventive activities with selected victims 02/2016 – 01/2019

Funding (total budget and type of funding (e.g. ISEC, EUCPN Fund,...)):

4 mil €, operational program Effective public administration, European social fund

Contact details project:

Ing. Jozef Halcin - jozef.halcin@minv.sk

Project 12

Project title:

The project of prevention of juvenile delinquency and criminality

Main theme:

The proposed project of prevention of juvenile delinquency and criminality is primarily aimed at universal, selective and indicated (primary, secondary and tertiary) prevention of sociopathological phenomena, juvenile delinquency and criminality of socially disadvantaged minors. This project is primarily aimed at solving social conflicts of clients and prevention, reduction and eradication of criminal behaviour related to clients' drug trafficking, child prostitution, human trafficking, child labour as well as prevention, reduction and eradication of social conflicts, social problems, social events and other sociopathological phenomena which are directly or indirectly related to the project's objective.

Project purpose and outcome (in two sentences):

The main purpose of the project is to significantly decrease cases of risk behaviour of our clients which can be solved mostly by outdoor social work (including streetwork) directly in the socially disadvantaged community followed by low-threshold treatment, preventive activities at schools in the form of experiential learning, communication of positive patterns, indicated (tertiary) prevention among individuals with different levels of deterioration of perception of accepted social norms or who possibly already committed a criminal offense. The outcome of the project is achieving a significant decrease in cases of risk behaviour as well as a significant decrease in the number of criminal offenses committed by minors by the use of the newest methods, techniques and approaches of social work which will be consulted and subsequently conducted by highly qualified experts from Slovak republic and other EU member countries.

Project submitter (Member State):

Slovak republic

Project leader(s):

Stála konferencia organizácií III. sektora Slovenskej republiky (SKTS SR)

Project partner(s):

Project description (max. 150 words):

In the first phase of the project we postulate the use of outdoor social workers for selecting locations and clients (children and adolescents) with risk forms of behaviours (drug trafficking, prostitution, child labour, drug abuse tendencies, et al.). Activities of low-threshold centers and experts are used as universal (primary) prevention of criminal offenses committed by these clients.

In the second phase we provide consulting, experiential learning services and lectures to the clients from selected locations as well as other clients (children and adolescents) who already exhibit certain traits of delinquent behaviour and are dealt with accordingly, with the objective to minimize the recurrence of sociopathological behaviour.

In the third phase we intend to create resocializational and rehabilitational (social rehabilitation) centers for clients and, on the basis of newest methods, techniques and approaches of social work which will be consulted and conducted by highly qualified experts from Slovak republic and other EU member countries in concurrence with knowledge of ICW Europe experts, to create requalificational courses, curative, corrective, rehabilitational and resocializational activities and to organize educational-recreational activities.

Objectives project (max. 150 words):

The main objective of the project is to significantly decrease the number of cases of risk behaviour of our clients and to achieve a significant decrease in number of criminal offenses committed by minors by the use of the newest methods, techniques and approaches of social work.

The objective of the project is also, on the basis of findings from practice, analyses, qualitative and quantitative research and statistics conducted by experts participating in the project in cooperation with ICSW Europe, I., II. and III. sectors, to propose and realize just, effective, continually set, conceptual, sustainable and plausible legislative changes aimed at prevention of juvenile delinquency and crime.

Other objective is to build resocializational and rehabilitational centers and facilities where we could create space for social work using the newest methods, techniques and approaches which will be consulted and conducted by highly qualified experts from Slovak republic and other EU member countries in concurrence with knowledge of ICW Europe experts.

Supplementary activities of these centers will also be lectures, experiential and educational-recreational activities at schools.

Project outcome (max. 150 words):

- Proposal and practical realization of just, effective, continually set, conceptual, sustainable and plausible legislative changes aimed at prevention of juvenile delinquency and crime.
- Models of community project solutions for rehabilitational and resocializational centers
- Retraining of experts for the work with juvenile delinquents (I., II. and III. sector) including supporting the rights and protection of witnesses and victims on all levels with focus on more particular and more effective practical activity in prevention against crime, based on our international experience.

Start and end project:

January 2016 - December 2016

Timescales and key milestone dates:

January - March 2016

Selecting of locations and clients (minors) with risk forms of behaviour (drug trafficking, prostitution, child labour, drug abuse tendencies et al.).

April 2016

Synchronization of low-threshold centres' activities and experts for universal (primary) prevention.

Synchronization (I., II. a III. sectors) of expert consulting, experiential and lecture services with the objective to minimize the recurrence of sociopathological behaviour of clients (minors) who already exhibit traits of delinquent behaviour and are dealt with accordingly.

May - December 2016

Opening of resocializational and rehabilitational (social rehabilitation) centers for clients where, on the basis of the newest methods, techniques and approaches of social work which will be consulted and conducted by highly qualified experts from Slovak republic and other EU member countries in concurrence with knowledge of ICW Europe experts, will be realized requalificational courses, curative and corrective activities, rehabilitational and resocializational activities and organized educational-recreational activities.

Supplementary activities of these centers will also be lectures, experiential and educational-recreational activities at schools.

Funding (total budget and type of funding (e.g. ISEC, EUCPN Fund,...)):

5 000 000€ (ISEC, Inaara, ESF)

Project 13

Project title:

Conception European Methodical Centre.

Main theme:

The submitted project of EMC is primarily aimed at system analyses of social protection of eurozone countries, on the grounds of these analyses there will be proposed by experts a highly developed, permanently sustainable (with regards to real possibilities of individual countries) unified system of social protection. This proposal will be reminded by social workers working with clients directly on location. The intention of developing this type of system of social protection is to unify national and international procedures for solving social problems and to look for common interests that would be beneficial for promoting positive social change and for maintaining citizens' well-being.

Project purpose and outcome (in two sentences):

The main objective of methodical function of the Slovak headquarters of EMC, in close cooperation with other branches of EMC which will be established by strong cooperation with ICSW Europe member organizations, will be **REAL CHANGE** of social situation of citizens in a sense of supporting and developing citizens' well-being in terms of real possibilities of individual countries by the use of all legal matters which are available to non-governmental and nonprofit organizations (III. sector) with the intention of equalizing social status of EU citizens as well as eradicating social conflicts. From SKTS and ICSW Europe's view this is the most effective preventive action in the field of primary, secondary and tertiary crime prevention.

Project submitter (Member State):

Slovak republic

Project leader(s):

Stála konferencia organizácií III. sektora Slovenskej republiky (SKTS SR)

Project partner(s):

International Council on Social Welfare Europe (ICSW Europe)

Project description (max. 150 words):

An expert analysis of theories, methods, approaches and activities realized by all subjects in terms of social protection in the past (prevention, security, health-care, emergency), an analysis with emphasis to specific data extraction which can be used for building a conceptual, sustainable, just - and within countries of EU - socially unified system.

The second step is reevaluation of the proposed system in close cooperation with experts. The selection of experts from EU member countries will be realized in cooperation with ICSW Europe member organizations and focus will be put on a high level of achieved social work competency.

The final step will be to present the proposed system of social protection as the most crucial preventive measure in the field of primary, secondary and tertiary crime prevention by the use of all legal means which are at non-governmental and nonprofit organizations' (III. sector) disposal.

Objectives project (max. 150 words):

The main objective of the project is, on the grounds of common values of good, complexity, complementarity, justice, adequacy and subsidiarity, to achieve the highest possible degree of EU citizens' well-being and that by unifying national and international solutions for social problems and by looking for mutual interests to support positive social change as the most crucial preventive measure in the field of primary, secondary and tertiary crime prevention.

The objective of the project is also to ensure, support and realize creation of informative-communicative environment beneficial and incentive for experts of all professions from I., II. and III. sectors and this way to contribute to building a unified, effective, continually set, feasible and sustainable social system in EU.

In this informative-communicative environment EMC in close cooperation with ICSW Europe intends to carry out projects focused on increasing employment opportunities, increasing moral and work ethics, creation and realization of programs and educational projects aimed at improving quality of life, work, cultural, artistic and social environment as well as countryside development on local, regional, nationwide and international levels.

Project outcome (max. 150 words):

- Recommended changes in the systems of social protection in EU countries,
- Models of community project solutions proving feasibility of the proposed system of social protection,
- Proposal and realization of the conception of social protection for Smart CITY Telematic Laboratory project, carried out by the Research institute Smart CITY in

Prague, which assists developmental countries with population stabilization and prevention of unwanted migration due to economic reasons,

- Practical realization of proposed solutions realized on the basis of results collected from researches and analyses conducted in Slovakia and other EU countries including support and protection of witnesses and victims as well as other fields of social work,
- Retraining of experts in the field of social work (I., II. and III. sector) including supporting the rights and protection of witnesses and victims on all levels with focus on more particular and more effective practical activity in prevention against crime, based on our international experience,
- Real change of EU citizens' social status proving to be the most effective means of crime prevention.

Start and end project:

as soon as possible - begin + 6 years

Timescales and key milestone dates:

Supposing the project would commence in January 2016:

January – November 2016

Research of history of social work, education in social work and performance of student and expert practical training (based on qualitative and quantitative research)

May 2017

Work on creating the proposed system of social protection together with finalization of the practical training manual for all levels (student practical training, practical training in I., II. and III. sectors)

October 2018

Processes related to applying theory into practice on all levels.

(Applying Theory into Practice)

December 2019

Selection of project solutions on local, national and international levels and their

realization under the methodical direction of EMC (Focus on Change)

December 2020

Evaluation of researches and effectiveness analyses of implemented actions including statistical data and analyses of success rate of project solutions on all levels (Focus on Outcome)

December 2021

Finalization of analyses and subsequent implementation of proposals for adjustments – reality-based – tuning = permanently sustainable, conceptual and continually set, just, unified, effective, demonstrably feasible system of social protection for EU member countries as the most effective and most efficient preventive measure in the field of primary, secondary and tertiary crime prevention.

Funding (total budget and type of funding (e.g. ISEC, EUCPN Fund,...)):

25 000 000€ (ISEC, Inaara, ESF)

Project 14

Project title:

Coordinating Methodical Centre for Prevention and Elimination of Violence against Women and Domestic Violence

Main theme: Gender-Based Violence, Domestic Violence

Project purpose and outcome (in two sentences):

The aim of the project is to establish the Coordinating-Methodical Centre for Prevention and Elimination of Violence against Women and Domestic Violence (CMC). The Centre will be responsible for creation, implementation and coordination of a comprehensive national policy on the prevention and elimination of gender-based and domestic violence.

Project submitter (Member State): Slovakia

Project leader(s):

Ministry of Labour, Social Affairs and Family of the Slovak Republic

Department of Gender Equality and Equal Opportunities

Project partner(s):

Institute for Work and Family Research (the Slovak Republic)

Norwegian Centre for Violence and Traumatic Stress Studies (the Kingdom of Norway)

Council of Europe

Project description (max. 150 words):

The CMC will be responsible for the professional coordination of activities within the area of primary prevention through providing methodical guidelines on the elimination of violence against women (VaW) and domestic violence (DV) for relevant stakeholders. The CMC will also facilitate multi-institutional cooperation among professionals providing assistance to survivors, including law enforcement agencies, health care and social service providers. Moreover, an educational system for these professionals will be provided by the CMC. Research, monitoring and awareness-raising remain an important

component of the project. Additionally, the CMC represents compliance with the Article 10 of the Council of Europe's Convention on Preventing and Combating Violence Against Women and Domestic Violence which requires State Parties to "*designate or establish one or more official bodies responsible for the co-ordination, implementation, monitoring and evaluation of policies and measures to prevent and combat all forms of violence covered by this Convention.*"

Objectives project (max. 150 words):

- The establishment of the CMC, including an expert team,
- Coordination of the national system of prevention and elimination of VaW and DV,
- An analysis of the current legislation concerning VaW and DV, followed by ensuring relevant legislative changes,
- Implementation of an educational system for professionals providing assistance to survivors,
- Developing methodical guidelines for providing relevant services as well as a system for their accreditation,
- Ensuring systematic and efficient education at existing educational institutions and creating a team of lecturers for lifelong learning programmes,
- Ensuring the system of primary prevention, including the coordination of educational and training activities,
- Developing and implementing awareness-raising strategies to promote gender equality and a zero tolerance approach to VaW and DV,
- Coordination of a nationwide awareness-raising campaign on VaW,
- An analysis and evaluation of the existing system of statistical reporting, improve and supplement the registration system in all relevant areas,
- Conducting research concerning VaW and DV.

Project outcome (max. 150 words):

- Relevant legislative instruments aimed at ensuring an effective system of prevention and elimination of violence against women and domestic violence, including specific legislation aimed at the elimination and prevention of violence against women and domestic violence will be developed and implemented.
- Sufficient knowledge on violence against women will be gathered in order to contribute to the expansion of effective tools in the area of prevention and intervention.
- A high-quality system of support for survivors of gender-based violence and domestic violence will be ensured.
- A prompt and efficient assistance to all women subjected to violence or to a threat of violence will be ensured, while keeping in mind the specific needs which arise from their situation.
- The level of sensitivity of relevant actors, the media and the public concerning gender-based and domestic violence will increase.

- The occurrence of violence against women and domestic violence will decrease in a long term.

Start and end project:

February 2015 – April 2017 (The approval process for the project contract extension to April 2017 takes place. The extension of financial spending was already approved.)

Timescales and key milestone dates:

April 2015 – Official launch of the project, establishment of the CMC

April 2015 – 1st Progress Report

August 2015 – 2nd Progress Report

December 2015 – 3rd Progress Report

Funding (total budget and type of funding (e.g. ISEC, EUCPN Fund,...)):

2 000 000 Euros

The project is supported by a grant from Norway and co-financed by the State Budget of the Slovak Republic. The project is carried out within the SK09 program: Domestic and Gender-based violence.

Project 15

Project title: SOS-Alert Solution - Cross-border cooperation project for enhanced detection and interception of illicit CBRN materials on the Slovakian-Ukrainian border

Main theme:

Enhancement of the capabilities of the Presidium of the Police Force of the Slovak Republic (PPF) and the State Border Guard Service of Ukraine (SBGS) and their respective partner at the border in specific areas related to CBRN threats

Project purpose and outcome (in two sentences):

The purpose of the project is to enhance the capabilities of the Presidium of the Police Force of the Slovak Republic (PPF) and the State Border Guard Service of Ukraine (SBGS) and their respective partners at the border in specific areas related to CBRN threats (mentioned below as work-packages) through exchange of experiences, best practices, and capacity building with the Norwegian Radiation Protection Authority and other European and international experts and organizations.

Project submitter (Member State): the Slovak Republic

Project leader(s): Ministry of Interior of the Slovak Republic

Project partner(s): State Border Guard Service of Ukraine (SBGS); Norwegian Radiation Protection Authority (NRPA).

Project description (max. 150 words):

Main activities of the project are summarized under the following work-packages:

1. Kick-off meeting at the SK/UA border.
2. Equipment procurement for the purpose of improving detection and interception of nuclear, radiological, biological, chemical and other illicit materials by PPF and SBGS. This equipment will also serve for training activities and exercise during the project implementation.
3. Joint threat assessment of problematic areas on the Slovakian-Ukrainian border (3 workshops);
4. Creation of a joint concept of operation - a manual for response in case of detection of

nuclear, radiological, biological and chemical other illicit materials on the Slovakian-Ukrainian border and manual for cross-border information flow in relation to CBRN threats (3 workshops);

5. Network trainings of PPF, SBGS staff, Customs and other LAA staff, prosecutors, judges and rescue emergency bodies to implement a joint concept of operation, to improve detection and interception capabilities in relation to nuclear, radiological, biological, chemical and other illicit materials

6. Study visits to Norway, France and Iceland for exchange of experiences and best practices for detection and interception of nuclear, radiological, biological, chemical and other illicit materials at border regions. Participants will be the project members involved to creation of the concept of operation and network training implementation

7. Organization of a joint exercise on the Slovakian-Ukrainian border with participation/observation by foreign partner organizations from different countries

8. Final conference

Objectives project (max. 150 words):

Following the pre-set-up Programme objectives, the objective of the project is to enhance the capabilities of the Presidium of the Police Force of the Slovak Republic (PPF) and the State Border Guard Service of Ukraine (SBGS) and their respective partners at the border in specific areas related to CBRN threats (mentioned below as work-packages) through exchange of experiences, best practices, and capacity building with the Norwegian Radiation Protection Authority and other European and international experts and organizations.

Project outcome (max. 150 words):

1/ Development of the efficient strategy in cross-border CBRN threats identification with relevant partners (Border Guard, Criminal Police, Customs, Army, Nuclear Regulatory Authority, Prosecutors, Judges, Professional and Voluntary Rescue and Fire Brigades ...)

1.1 Improving the rapid identification of CBRN agents. Strengthening of forensic capacities in the region to fight against illicit trafficking of CBRN agents

1.2 Enhancing information sharing with relevant organizations

1.3 Improve fast identification of CBRN materials at the border crossings.

1.4 Increase the level of knowledge in the field of identification of hazardous materials.

1.5 Increase the capability and technical capacities in monitoring and reporting of import/export activities of CBRN material.

1.6 Increase capabilities in fighting against cross-border crimes and build strong network

1.7 Improve the level of technology in the field of CBRN material identification.

2/ Enhance the capacities of law enforcement agencies in the investigation related to cross-border environmental crimes and CBRN incidents

3/ Improve the border management and facilitate the border crossing.

Start and end project:

15.04.2015 – 30.04.2017

Timescales and key milestone dates:

30.04.2016

Funding (total budget and type of funding (e.g. ISEC, EUCPN Fund,...)):

The project is being implemented within the program SK08 Cross-border cooperation financed from the Norwegian Financial Mechanism 2009-2014 (85%) and the state budget of the SR (15%).

Project grant: EUR 971,848 (NFM and the state budget of the SR)

Own recourses of the Ministry of Interior: EUR 171,502

Total eligible cost: EUR 1,143,350

Project 16

Project title: Coordinating Methodical Centre for gender based and domestic violence

Main theme:

Creation of the Coordinating Methodical Centre for gender based and domestic violence

Project purpose and outcome (in two sentences):

The main purpose of the project is to create the Coordinating Methodical Centre (CMC) which will focus to develop, implement and coordinate a comprehensive national policy for the area of prevention, intervention and elimination of violence against women. The CMC will create an expert team responsible for technical co-ordination and supervision of the system of prevention intervention services for victims of violence against women (VaW) and domestic violence and overview and ensure the quality of services provided in the area.

Project submitter (Member State): Slovak Republic

Project leader(s): Ministry of Labor, Social Affairs and Family of Slovak Republic

Project partner(s): Norwegian Centre for Violence and Traumatic Stress Studies, The Council of Europe, Institute for Labour and Family Research

Project description (max. 150 words):

The creation of an effective system of crisis intervention and multi-agency cooperation requires the coordination, elaboration of methodologies and standards as well as information campaigns to the public. This should be supported by a public body responsible for the coordination of policies to prevent and eliminate violence against women and domestic violence according the requirement of the Council of Europe Convention on preventing on and combating violence against women and domestic violence, Art. 10. The project aims at creating such a body - the Coordinating Methodical Centre. The main outputs of the project are:

- establishment of a national system for the co-ordination, implementation, monitoring and evaluation of policies and measures to prevent and combat all forms of violence against women and domestic violence;
- CMC created with employed/contracted internal and external experts and other

staff ;

- Methodological guidelines created for the services and a multi-agency co-operation, including the accreditation system for providers based on the transfer of good practice in Norway;
- Education system of service providers and helping professions, including the accreditation system for training courses;
- Education and trainings of trainers and helping professions performed;
- Analysis of the national legislation and suggestions for its revision carried out;
- System for the monitoring and research developed
- Monitoring reports elaborated and the research conducted;
- System of the primary prevention elaborated and piloted;
- Campaign and awareness-raising activities carried out;
- Design of a sustainable system of the financial mechanism prepared.

Objectives project (max. 150 words):

To create the body responsible for the co-ordination, implementation, monitoring and evaluation of policies and measures to prevent and combat all forms of violence according the Council of Europe Convention on preventing on and combating violence against women and domestic violence, Art. 10;

To develop and implement a coordinated system to ensure an effective prevention, intervention and elimination of VaW and domestic violence;

To ensure effective and immediate assistance to all women survivors of violence or at the risk of violence and other victims of domestic violence with respect to their specific needs arising from their situation;

To develop a knowledge base on the phenomena of violence against women and domestic violence as a essential prerequisite for the creation and practical implementation of effective tools and measures for the intervention and prevention in cases of violence.

Project outcome (max. 150 words):

- Quality assurance for the prevention and intervention system;
- Effective help to the victims of violence against women and domestic violence;
- Increased sensitivity of the main actors, the media and the public on the VaW and domestic violence;
- Increased sensitivity of victims and thus increased level of cases of VaW and

domestic violence brought to the court;

- Reduced incidence of violence against women and domestic violence.

Start and end project:

19.09.2014 – 30.04.2016 (possible to extent till 30.04.2017)

Timescales and key milestone dates:

Funding (total budget and type of funding (e.g. ISEC, EUCPN Fund,...)):

Total eligible cost: EUR 2,000,000

The project is being implemented within the Program SK09 Domestic and gender-based violence financed from the Norwegian Financial Mechanism 2009-2014 (85%), the state budget of the SR (15%).

Project 17

Project title: Creation of law enforcement contact points network

Main theme: Sharing the information to prevent organised and cross-border crime

Project purpose and outcome (in two sentences):

Improve cooperation among law enforcement state agencies in the European environment

Project submitter (Member State): Slovak Republic

Project leader(s): Mr. JUDr. Marian Babic

Project partner(s): Mr. Ing. Peter Macák

Project description (max. 150 words):

Based on experiences gained within the practice from the Slovak Customs and Tax administration (SCTA) occurred requirement to create cross-border cooperation among law enforcement state agencies in the European environment especially due to increase organized crime in connection with smuggling, human trafficking and economic crimes. Whereas corruption is a key factor that facilitates illegal activity, there is a necessary to improve the dialogue on the operative level. Department of Inspection the financial directorate of the Slovak republic (DIFD) is a law enforcement unit that is responsible for fight against corruption within SCTA and provides the cooperation with Police, Intelligence service in this context. With respect to mentioned facts and actual security situation in EU it is necessary to create international share points that ensure exchange operative information. The main ambition of this project is arrange the share point network and join the law enforcement agencies other countries on the same level.

Objectives project (max. 150 words):

- Improve mutual cooperation on an international level
- Proposal of timeline work meetings
- Share operative/useful/trend information between contact points
- Establish a legal framework for cooperation

- Maintain the communication
- Increase a trust
- Share the best practices

Project outcome (max. 150 words):

- Establish the international share point network
- Improve the communication
- Establish liaison points
- Share the results of cooperation
- Improve the global cooperation

Start and end project:

March 2016 – September 2017

Timescales and key milestone dates:

3-4/2016 – work meeting - Austria

5-6/2016 – work meeting - Czech Republic

7-8/2016 – work meeting - Poland

9-10/2016 – work meeting - Serbia

11-12/2016 – work meeting - Slovenia

1-2/2017 – work meeting - Romania

3-4/2017 – work meeting - Italy

5-6/2017 – work meeting - Hungary

7-8/2017 – work meeting - Germany

9/2017 – work meeting - Spain

Funding (total budget and type of funding (e.g. ISEC, EUCPN Fund,...)):

30 000 €

Costs of travel, logistics issue

Project 18

Project title:

Cyber jungle

Main theme:

Cybercrime

Project proposer: Poland

Project leader(s): The Municipal Police in Szczecin

Project supporter(s): The Schools Headmasters

Project scope:

The "Cyber jungle" project is aimed at the younger Internet users, their carers as well as people taking part in their education and attitudes shaping. Its mission is to improve the overall security of the Internet users, especially those who are not properly prepared for it.

This set includes the surrounding reality: young people and children do not know the hazard and their parents - who in the accompanying circumstances had not followed the development of this medium - are remaining in ignorance with respect to its capabilities and threats. It is a form of family dysfunction in terms of proper childcare.

Therefore, the security is based on many factor program components and is constructed of three main elements:

1. Increasing awareness of the program participants about the perils related with the Internet used by children and young people as well as improving the safety of its users. It is also one of the objectives of the program.
2. Activating parental control over minors benefiting from the resources and engineering data tools.
3. Introduction of the correlation element in the usual utilization of Internet resources by individual users in a secure direction to each family or group of users.

According to this plan different security levels are achieved by developing the ability to accurately search for specific information preventing contact with the unwanted content. This problem affects mostly youngest children, who should be able to precisely follow specific knowledge resources without the risk of contact with violence, pornography, etc.

Older users should have the ability to assess legal aspects of their activity on the

network often balancing on the edge of admissibility.

Another area of impact is developing capacity to assess the risk when establishing virtual relationships and ability to conduct correspondence in a secure manner, i.e. without disclosure of sensitive data as well as creative and save use of defence mechanisms against process of grooming.

The whole project includes the need to develop mechanisms for sharing resources and information technology tools with the minors and their guardians in such a way that the use, for example, of the social network did not facilitate the acquisition of knowledge about the family.

The program is implemented through meetings and workshops with minors, and then with their carers and educators. This gives them the opportunity to acquire knowledge, which parents and guardians do not have, and use it during meetings that are conducted in a form of small talks with the use of multimedia technologies.

"Cyber jungle" handbook for parents was also published as well as "Cyber jungle" and "Cyber security" educational materials for parents and people interested in the issues.

These publications contain information that introduce people who had no contact with the network before into the secrets of virtual reality. This message shows concepts for the average reader with a view to identify opportunities to supervise minors' online activities.

Project outcomes:

Multimedia tools including instruments of social communication within the Internet might form the germ of crime. They allow young people to gain knowledge about the world, help to create their own system of values, shape attitudes and skills.

Due to their role in the modern world, especially in the education, they should be seen not only in terms of inexpressible possibilities and creating enormous opportunities, but also in terms of the hazards and risks and the potential use by criminal environment. Therefore, the objective of the project is to improve awareness of criminal responsibility for the behaviour exhibited on the Internet having comprehensive hallmarks of offences. The premises of the plan are also directed at widening the knowledge of adult users such as parents and educators about all the popular environments used by young people in a risky manner, which in turn grants them to work out effective supervision over them and shape their proper attitudes.

An important aspect of the plan is also teaching the ability to protect sensible information that can be used as a tool for criminal actions of certain groups.

The program calls for evolution of the ability to measure the importance of data transferred on the web (for criminal circles) about actual life. The adult participants have the opportunity (in the form of workshops) to understand how to have correspondence oriented for sensitive data acquisition, in a veiled way.

- Familiarise themselves with websites and portals used by young people and together with the leader conduct risk analysis for establishing the risky relationships, especially by younger users.
- They familiarize themselves with popular games and their narrative. They participate in a multimedia show that in an attractive way enriches their knowledge about the Internet.

This leads ultimately to establishing the authority of the parent/guardian oriented to the virtual reality, who becomes a partner for younger generation in the conversation.

So built family relationships allow common online activity, particularly in the field of social networks in such a direction that the information put up on them by individual household members do not complement each other and does not turn into a reliable image of the family in the network and the actual world which contributes to eliminate the dangers presented by the Internet.

Timescales and key milestone dates:

The level of execution of the project is measured by assessing the number of interested schools in terms of divisions and statistical information concerning the act committed by juvenile offenses including acts committed via the Internet in Szczecin.

- In 2013 we conducted 16 meetings
- In 2014 we conducted 17 meetings,
- In the first half of 2015 year, 39 meetings were carried out

Crime Statistics:

- In the first half of 2013 the overall number of offenses committed by juvenile offenders was 436 208.
- In the first half of 2014 the number fell to 257 offenses committed by 126 juvenile offenders.
- In the first half of 2015 154 offenses were committed by 64 perpetrators.

A large downward movement is visible. It should be mentioned that in the above mentioned period, there were no common offenses committed via the Internet made by juvenile perpetrators, i.e.:

- Criminal offenses of article 286 § 1 of the Penalty Code (fraud),
- Art. 267 of the Penalty Code (theft of data),
- Art. 268 of the Penalty Code (violation of the right to learn the information through the demolition, removal, damage or change in the records).

The project is still in the implementation phase, which followed the needs reported by institutions interested in taking part in the plan. The potency of the meetings can provide information from the schools indicating the change in students' attitudes and common and consistent functioning of parents in improving parental control and a reduction of offenses given by minors despite the growth in Internet usage. Execution of the project is proceeding in conformity with its aims.

Funding issues:

With regard to project preparation and the training of tutors it is not possible to calculate the exact costs due to the fact that the coordinators realize the project while performing their duties.

The project is planned to be financed with own funds of The Municipal Police in Szczecin.

Notes

"Cyber jungle" preventive program is an initiative aimed at children and young people and their carers. The program is designed to raise the level of safety. It is carried out in a form of meetings and workshops with children, youth and their parents, carers and teachers. A simple, accessible language and talks about difficult issues are one of the

advantages of the program. The people conducting the meetings communicate content tailored to the age and educational level of the audience. The project consists of several components. The first task is to improve awareness of the risks associated with the Internet use by children and young people as well as improving the safety of its users. The second element is to activate parental control over children who use the Internet and develop mechanisms for joint use of it by children and their caregivers. The third one is to improve relations inside the family and build the authority of the parent who is familiar with the specifics of virtual environments of the youth. This way he/she becomes a partner for the teenager in a conversation about the problems.

<http://www.kmp.szczecin.pl>

Project 19

Project title:

CYBER-VIOLENCE - HOW TO COUNTERACT IT

Main theme:

Cyber-violence

Project submitter: Poland

Project leader(s): The Group of Technical Schools in Elbląg, the Municipal Headquarters of Police in Elbląg

Project supporter(s): Municipality of Elbląg - Department of Education, Sports and Tourism

Project scope:

The Project is dedicated to students, students' parents, teachers and principals of junior secondary schools within the Elbląg municipal commune.

The anticipated number of beneficiaries encompassed by the project – 2000 students, parents and teachers of junior secondary schools within the Elbląg municipal commune.

Project outcomes:

Running the wide range of activities intended to increase awareness among the principals and the teachers of junior secondary schools as well as the students and their parents regarding the legal and penal consequences related to cyber-violence. On top of that, undertaking by the principals and the teachers the educational and preventive measures that would disseminate the principles of using modern communication technologies in a safe way to the students and their parents and would determine the threats resulting from using the said modern communication technologies.

The main outcome stemming out from the activities within the project will be enhanced legal awareness among the students and their parents about cyber-violence from the point of view of a victim and a perpetrator.

Timescales and key milestone dates:

The activities to be completed within the Project have been scheduled to commence on 1st January 2016 and to terminate on 31st December 2016 and they will be implemented in the second semester of the school year 2015/2016 to be continued in the first semester of the school year 2016/2017.

Funding issues:

Financial means indispensable to implement the Project amount to 9,000 Euro and encompass the following:

- elaboration of information bulletin, procedures, information leaflets, visual materials, amount – 2,500 Euro
 - educational spot and its presentation, amount – 1,250 Euro
 - awards for the participants in the competition for dramatic forms related to cyber-violence, amount – 3,750 Euro
 - renting the main stage of the theatre for the final gala, amount – 1,500 Euro
- Additionally, the down-payment in the Project will cover the work performed by the teachers and the officers of the Municipal Headquarters of Police in Elbląg as well as the financial means obtained from the programme “Safe Elbląg” – 15,000 Euro

Notes

Analysis of the information uploaded to the Internet and disseminated by young people, including the students of junior secondary schools, devoid of penal and legal awareness of the consequences stemming out from the information published, easy access to modern communication devices and the Internet as well as the feedback obtained from principals and teachers remain the basis for elaborating the project dealing with widely understood cyber-violence.

The Project devised, having the Municipal Headquarters of Police in Elbląg, The Group of Technical Schools in Elbląg, the Municipal Authorities in Elbląg and local junior secondary schools as partners, will be subject to evaluation process after its termination which is going to reveal the degree to which the assumed objectives have been achieved. The evaluation method has been planned already and will involve the surveys to be carried out within the target groups of the project, i.e. students, parents and teachers. The evaluation of the project as far as its educational features are concerned will constitute one of the assessment elements, which is going to be completed by School Inspectorate

in Olsztyn.

Any activities encompassed by the project, i.e. educational scenes, lectures, discussions, competition in dramatic forms and its deciding are intended to be completed in line with assumptions and schedules. Assumed main and detailed project objectives are going to be reached as well.

Anybody can become a victim of cyber-violence. Instead of building up relations, the Net is more and more often becoming a trap. Rapid development of modern media, the Internet especially, has generated new threats. Dangerous, pathological behaviour like aggression and violence has gained new tools and, hence, adopted new forms. The phenomenon was diagnosed only several years ago and is nowadays referred to as "cyber-violence". It involves electronic aggression demonstrated by stalking, harassment, mockery and bullying. Anonymity and impunity of the perpetrators strongly contributes to the proliferation of the phenomenon. Hence, it may affect anybody. However, children and the youth remain among those who are mostly exposed to the threat therefore it is necessary to establish efficient counteractive measures having the form of various programmes and preventive and educational actions.

The Municipal Headquarters of Police in Elbląg jointly with the Group of Technical Schools in Elbląg intend to prepare the preventive programme for the students of junior secondary schools entitled "Cyber-violence – how it counteract it?", which is to be implemented during the school years 2015/2016 and 2016/2017.

The main objectives of the programme shall encompass:

- 1) providing credible information about the essence, forms and scale of cyber-violence as the phenomenon,
- 2) visualisation of the threats related to taking advantage of electronic tools,
- 3) demonstrating the moral aspects of cyber-violence as the form of harming another person,
- 4) informing about the legal consequences stemming out from cyber-violence,
- 5) shaping proper personal and social attitudes of active counteractions to any demonstrations of electronic aggression and violence,
- 6) shaping the abilities to use electronic media in a safe manner,
- 7) limiting the tendencies to proliferate electronic aggression within the youth in

Elbląg,

- 8) determination of effective forms to counteract electronic aggression and violence and to help their victims,
- 9) determination of efficient procedures for schools when cyber-violence has been detected among their students,
- 10) elaboration of procedures defining the measures to be taken when cyber-violence has occurred.

We intend to take the following actions within the aforementioned programme:

- 1) preparation of the scenarios for educational scenes demonstrating verified forms of cyber-violence,
- 2) preparation of a multimedia presentation related to the programme
- 3) lectures on cyber-violence – to be made by a representative of the Municipal Headquarters of Police in Elbląg,
- 4) preparation and sending out the regulation of the municipal competition in dramatic scenes entitled “Cyber-violence – how to counteract it”,
- 5) elaboration of the syllabus and the schedule for the meetings to be held in junior secondary schools and rehearsing the groups of students from the Group of Technical Schools in Elbląg,
- 6) performing the scenes related to various forms of cyber-violence – the scenes are to be prepared by the students from the Group of Technical Schools in Elbląg,
- 7) holding the discussions on the issues within the meetings with the students of the junior secondary schools , during which the said scenes are to be performed, information obtained from the lectures and the multimedia presentation is going to be disseminated – meetings to be moderated by a representative of the Municipal Headquarters of Police in Elbląg,
- 8) The Project shall be summarised by the finale and deciding on the drama competition entitled „Cyber-violence – how to counteract it?” - the said competition assumed the preparation and performance of educational scenes related to electronic violence among the youth. Teachers and students of junior secondary schools, supported by a representative of the local theatre, will prepare a play which is to be evaluated by professional jury. The scenes will be performed on the stage in the theatre in December 2016. Individual and team winners will be selected.

Educational materials will be prepared within the project as bulletin , brochures, leaflets and surveys devoted to cyber-violence as well as the files containing the procedures for tutors, educators, school psychologists, teachers and school principals.

The programme to be implemented in the junior secondary schools as first will contribute to taking regular preventive measures which will make students, parents and teachers aware of safe ways of using electronic communication forms and will determine the threats posed by taking advantage of various communication technologies. The preventive and educational programme will constitute the basis to the principals of junior secondary schools and their teachers for the implementation of action plans to counteract cyber-violence.

The subjects tackled upon by the project , their up-to-date character and the range will make the undertaking cover the entire city. However, it may be used by other local government as the so called “ good practice”. In order to enhance the status of the programme , we are going to ask the President of Elblag to become its honorary patron.

The project to be implemented and the activities to be executed within the Municipal Commune of Elblag have not been enforced so far in a similar manner. Its unique and innovative features result from the involvement of many parties, i.e. the youth, teachers, parents, Police officers, the authorities of the province and the city, educational authorities, theatre and the media.

In order to share experience and good practices , the Group of Technical Schools in Elblag has been cooperating with a German partner, namely the Institution to Promote Vocational Education in Frankfurt on Oder. The partners in the project, the Municipal Headquarters of Police and the Group of Technical Schools in Elblag, have been cooperating with a partner from Bulgaria. The collaboration with foreign partners has brought tangible results through the acquisition of new vocational, cultural and linguistic experiences and gaining new skills in education and didactics.

Project 20

Project title: Become a guardian angel!

Main theme: Prevention from becoming a victim of trafficking in human beings

Project purpose and outcome (in two sentences): Website www.anjelistrazni.sk where "protégé" can register before travelling abroad and connect his/her account with his/her social networks. His/her chosen friends or relatives ("guardian angels") are warned if the protégé has not been active on social networks or he has not clicked on the sign „I am OK" for more than 24 hours.

Project submitter (Member State): Slovakia

Project leader(s): Brániť sa oplatí Slovensko, o.z.

Project partner(s): Ministry of Interior of the Slovak Republic

Project description (max. 150 words):

Project "Become a guardian angel!" is realized by a non-profit civic association BSOS in cooperation with the Ministry of Interior of the Slovak Republic. It is focusing primarily on young people who travel to work abroad, as well as on their families and friends.

The functioning of the website is following:

1. Register on the website and fill in your profile information – name, address, where do you travel, for how long, where will you stay, name of your employer, etc. Connect your social networks profiles to your profile on the website.
2. Invite and add your guardian angels – your family or your friends.
3. Your social network activities will be noticed on the wall visible to you and your guardian angels.
4. If you will not be active for a longer period of time (24, 48 hours), website will ask your guardian angels to contact you to find out, if you are safe.

The project was financially supported by the Slovak Government's Council for Crime Prevention.

Objectives project (max. 150 words):

The aim of the project is to raise the awareness among the target group (people from 16 – 35 years of age) and general public about the risks and dangers associated with trafficking in human beings or so called modern slavery. The website www.anjelistrazni enables the active engagement of the target group in the prevention. Thanks to this useful and user-friendly website are people abroad more safe and meanwhile their friends and families can be calmer due to the provided overview. The website helps to prevent critical situations and enables to respond quickly in the case of emergency.

Project outcome (max. 150 words):

Comic (advertisement on the website), audio spot, video spot, website
www.anjelistrazni.sk

Start and end project: 11/2015 - 2016

Timescales and key milestone dates:

November 2015 – launch of the website

Funding (total budget and type of funding (e.g. ISEC, EUCPN Fund,...)):

Grant from the Ministry of Interior of the Slovak Republic: 15 000 EUR

Project 21

Project title: Cost & Impact of Cybercrime in Belgium

Main theme: Create a country-specific model to analyse and determine the damage caused by cybercriminals in the Belgian society.

Project purpose and outcome (in two sentences):

The project aims to reach an objective, realistic and up to date picture of cybercrime in Belgium and its evolution over time.

A critical assessment of international research reports will be conducted to get an overview on the existing know-how in measuring the cost of cybercrime and the indicators to be used.

Project submitter (Member State): Belgium

Project leader(s): Center for IT & IP law (KU Leuven)

Project partner(s): UGent, Belgian Center for Cybersecurity, Home Office Belgium

Project description (max. 150 words):

Work Packages :

<u>WP1</u>	Stocktaking and requirement analysis
<u>WP2</u>	Building a model for Belgium
<u>WP3</u>	Data collection among Citizens
<u>WP4</u>	Data collection among Industry Sectors
<u>WP5</u>	Data collection among Government Authorities
<u>WP6</u>	Countermeasures investment – cost forecasting
<u>WP7</u>	Dissemination and valorisation

Objectives project (max. 150 words):

Different data sources with information on cybercrime in Belgium will be identified and

analysed and an assessment will be made of missing data sources.

Conducted over a period of four years, the research will deliver a better informed and scientifically based view on the menace, thanks to a country-specific model for assessing the impact and cost of cybercrime, to be used in the coming years for collecting comparable and sound information. Moreover, it will also provide strategic insights and guidelines to policy makers on how to advance the implementation of principles integrated in the Belgian National Cyber Security Strategy.

Project outcome (max. 150 words):

Overall, there will be two main research results:

- a methodology and model with proven indicators to be monitored to yield an overview on what is the extent of the cost and impact of cybercrime in Belgium
- an overview of cost and impact of cybercrime in Belgium, obtained by applying the model designed.

Start and end project:

01/06/2014 – 28/02/2018

Timescales and key milestone dates:

2014	Survey general public > results 2015
2016	Survey industry > results 2016
2016	Survey governmental authorities
2017	Follow up survey general public
2018	Report and communication strategy + guidelines and recommandation

Funding (total budget and type of funding (e.g. ISEC, EUCPN Fund,...)):

684.731 EUR (Federal budget of research)

Contact details project: Ann Mennens B-CCENTRE (ann.mennens@kuleuven.be)

Project 22

Project title: European Prize for Social Integration through sport SPORT +

Main theme:

Approaches to contain violence and tackle racism and intolerance in sport

Project purpose and outcome (in two sentences):

To tackle cross-border threats to the integrity of sport, such as doping, match-fixing and violence, as well as all kinds of intolerance and discrimination, through the exchange of practices and the creation of an European Prize for Social Integration through sport

Project submitter (Member State): France

Project leader(s): European Forum for Urban Security

Project partner(s):

1. asbl Fan coaching-Eurofan, Belgium
2. Forum Italiano per la sicurezza urbana, Italy
3. MINISTERIO DA ADMINISTRACAO INTERNA, Portugal
4. Nederlands Instituut voor Sport en Bewegen, The Netherlands
5. UNIVERSIDAD DE ZARAGOZA, Spain

Project description (max. 150 words):

Efus has included recommendations on the preventive role of sport in its Manifestos (2006, 2012). Sport activities especially at the amateur level can play a role in building community links and reinforce social cohesion.

Efus is very well placed to work with local authorities and sport organisations towards the reduction of violence, racism and intolerance by means of practices and expertise

exchange. This project sets up a partnership in line with the aim of the Sport Collaborative partnerships fostering collaboration between sport organisations and local authorities.

Efus will involve as much local authorities as possible through their participation in the 1st European Prize for Social Integration through Sport. Five winners will be selected by an independent panel of experts and will then host "Local Sport Days" focusing on the role of sport for social integration. Moreover, some of the French cities hosting the EURO 2016 football cup will be involved in the project hosting the award ceremonies of the Prize. A series of videos will be produced for each Local Sport Days as well as a final guide-book targeting local authorities.

By the variety of partners involved, the relevance of Efus' network for both the richness of practices and expertise, the innovative idea of organising an European Prize and the inclusion of some of the cities hosting the EURO 2016, this project has a real potential for spreading the positive values of sport at a EU level and reach a remarkable number of EU citizens and stakeholders.

Objectives project (max. 150 words):

The main goals of the project are to:

- exchange innovative practices on how to strengthen communities and convey messages of respect, prevention and anti-discrimination through sport in cooperation with sport organisations;
- develop locally-based cooperation practices between Municipality's services strengthening cooperation between sport and security services;
- involve local partners in building local strategies for social inclusion through sport.

Project outcome (max. 150 words):

- Collection of practices on sport and crime prevention, shared at EU level: the organisation of the EU Prize does not only aim to award and select the best practices, but also to have a secondary effect of allowing Efus and its partners to collect a wider number of practices on this topic. Final political and practical recommendation for local authorities will indeed be based on the overall material collected during the project. Objectives will be set at the beginning of the project on how many practices will be collected and those will be used as a criteria for evaluation;
- Assistance to cities giving access to all the experiences carried out in the field locally. This will allow the sharing of expertise about key success factors, difficulties and will

improve the capacity to adapt practices in different contexts.

- Give wide visibility to local actions, raise awareness of the general public on the importance of sport in fighting violence and strengthen the European identity through common action. One of the project main outcome will be the creation of good means to learn about other countries for EU citizens in order to create and share common values;
- Establishing links between entities from different backgrounds, such as: sport organisation and local authorities, researcher and associations, EU institutions and local level. Due to the extremely wide representation of stakeholder among partners but also other participants, this project will allow to obtain a very high quality result on the cooperation among different levels of governance;
- Creation of a working group engaged on the topic of sport and prevention of crime at the EU level: the project will allow for the creation of such a topic-related network, but in order to evaluate the impact of this aspect a long-term perspective should be taken into account.

In France, Efus will work closely with the Comité Interministériel de Prevention de la Délinquance.

-Creation of an European Prize on this field with the particularly to underline the partnership between the local associations and the local authorities.

Start and end project:

From 01/01/2015 to 31/12/2016

Timescales and key milestone dates:

Collection and exchange of practices : from January 2015 to April 2015

First coordination meeting : February 2015)

European Prize for Social Integration through Sport: from May 2015 to November 2015

Meeting with Experts for the jury on the European Prize for Social Integration through Sport : November 2015

“Local Sport Days” : from January to May 2016

Dissemination/communication: from January 2015 to December 2016 and onwards

EURO 2016 Prize award ceremonies : from June 2016 to July 2016

Capitalisation : from December 2015 to December 2016

Funding (total budget and type of funding (e.g. ISEC, EUCPN Fund,...)):

Total costs of the project: 368 271,60 €

This project is co-funded by **Erasmus +** Sport collaborative Partnerships (294 617 € representing 80% of co-funding)

Co-funded by the

Project 23

Project title:

European local Authorities against extremism LIAISE 2

Main theme:

Prevention of violent radicalisation in European cities by strengthening the capacity of local authorities as key, first line actors of prevention.

Project purpose and outcome (in two sentences):

“European local authorities against extremism” wants to prevent radicalisation leading to terrorism and violent extremism. Its overall goal is to strengthen the capacity of European towns, cities and regions to prevent and deal with violent radicalisation.

Project submitter (Member State): France

Project leader(s): European Forum for Urban Security

Project partner(s):

Ufuq e.V., City of Augsburg, Department of Justice - Generalitat de Catalunya, City of Alexandroupolis, City of Bagneux, City of Bordeaux, BRAVVO - City of Brussels, City of Dusseldorf, City of L'Hospitalet de Llobregat, City of Liège, City of Malmö, City of Paris, City of Reggio Emilia, City of Sarcelles, City of Setubal, City of Toulouse, Forum Belge pour la Prévention et la Sécurité urbaine, Forum Français pour la Sécurité urbaine, Italian Forum for Urban security, Confederation of European probation, City of Bologna, City of Essen, German European Forum for Urban Security DEFUS.

Project description (max. 150 words):

Creating and bringing to life a European network of local authorities to

prevent violent radicalisation

LIAISE will create a European network of local and regional authorities by bringing together 18 cities, 3 regions, 5 associations of cities and 3 thematic NGOs; in total, 29 partner organisations from 10 countries, embedded into the Efus network of more than 250 local authorities in Europe and its national Forums. The network will be launched and brought to life through the activities of the LIAISE2 and shall subsequently continue its work as part of the European Forum. This network will subsequently continue its work as part of the Efus. It would complement the RAN, which does not include a network of local authorities in its working group system.

Organising 18 training sessions in 9 countries

During the first phase of work in the partner cities, training will be delivered for the stakeholders of the local multi-agency prevention partnerships in each partner city and representatives of guest cities. A total of 18 training sessions in 9 countries will be organised, based on the training modules currently being developed as part of the LIAISE project.

Setting up a resource webpage for local authorities

At the same time, a European resource webpage will be developed. It will bring together available knowledge and tools, local practices and serve as a platform for dialogue for the project's partners.

Implementing pilot initiatives to prevent violent radicalisation in 17 European cities and regions

During the second phase of work in the partner cities, the local authorities will launch a local prevention initiative based on the received training and their analysis of the local situation.

Organising 5 European thematic seminars

Over the two years of the project, 5 European thematic seminars will provide a space for European exchange and dialogue and political discussion. They will be occasions for the "European local authorities against extremism" – to present itself and the work accomplished and to reach out to other European local and regional authorities as well as to other national and European stakeholders.

Communication, documentation and dissemination

During the third phase of work in the partner cities, the implemented activities will be documented and reviewed by the cities in cooperation with Efus and the expert partners. The knowledge gained in this way will be documented and disseminated.

Objectives project (max. 150 words):

The "European local authorities against extremism" project (LIAISE2) wants to prevent

radicalisation leading to terrorism and violent extremism by federating European local and regional authorities and strengthening their capacity to prevent and deal with violent radicalisation.

LIAISE 2 aims to:

- Create a European network of local authorities to prevent violent radicalisation
- Support the creation of the institutional infrastructure in order to provide a multi-agency prevention partnership to understand and deal with various aspects of radicalisation and extremism in a given territory.
- Provide training for the local authorities and their multi-agency prevention partnerships
- Launch pilot initiatives - to apply locally the knowledge gained through training, and to develop innovative practices.

Project outcome (max. 150 words):

- A European network and a political platform representing European local and regional authorities (29 partner organisations, 10 countries, 18 cities, 3 regions, 5 associations of cities, 3 thematic NGOs embedded in a longstanding network of more than 250 local authorities across Europe)
- Training for 200 local frontline actors from 20 cities and 10 countries
- Pilot initiatives in 17 European local and regional authorities in 9 countries
- Online Resources for local authorities
- A review of pilot initiatives and European practices
- Policy recommendations for the local, national, European and international levels.

Start and end project:

From 05/01/2016 to 04/01/2018

Timescales and key milestone dates:

The project will be piloted and managed by Efus, implemented by the partners on their respective activities. The project is based on 5 Work packages that follow each other in the timeline but are interdependent:

WP0: Management and coordination of the project

WP1: European network of local authorities to prevent violent radicalisation

WP2: Training session in each partner city and region

WP3: Pilot initiatives in each partner city and region

WP4: Communication, documentation and dissemination

Funding (total budget and type of funding (e.g. ISEC, EUCPN Fund,...)):

European Commission: Internal security fund police (2014-2020) - Call for proposals – home/2014/isfp/ag/radx - Preventing radicalisation to terrorism and violent extremism

EU contribution: 618.611,85€ (90% of the project's total costs)

Project 24

Project title:

JUST and SAFE CITIES FOR ALL - LOCAL ACTIONS TO PREVENT AND COMBAT RACISM AND ALL FORMS OF INTOLERANCE

Main theme:

Prevent and combat racism, xenophobia, homophobia and other forms of intolerance

Project purpose and outcome (in two sentences):

- The main objective is to raise awareness at the local level and beyond, by making use of the roles and influence of local elected representatives to inform about the problems of racist violence and all forms of intolerance which are spreading over Europe. In its cities' Manifesto, Efus advocates a Europe that is open to the world, seizing the potential of the diversity of its populations. "A just city is a safer city" promotes Efus Manifesto. Promoting a tolerant city and fighting racism go in line with Efus principles and actions, in favour of a safe city.

The outcome will be to highlight 50 promising local practices in Europe developed by local and regional authorities in the field of fighting and preventing racism and all forms of intolerance.

Project submitter (Member State): FRANCE

Project leader(s): European Forum for Urban Security

Project partner(s): French Forum for Urban Security (France) , Spanish Forum for Urban Security and Prevention (Spain), Italian Forum for Urban Safety (Italy), Jagiellonian University (Poland) , IKF - Institute of Conflict Research (Austria), Ufuq (Germany), Associação portuguesa de Apoio à vitima (Portugal), Belgium Forum for prevention and urban safety (Belgique)

Project description (max. 150 words):

The project "Just and safe cities for all" will gather 9 partners, from 8 different countries during 24 months.

The activities will consist in :

- Gather promising local practices in Europe developed by local and regional authorities on the topic of fighting and preventing racism and intolerance. In order to be representative of Europe, a call of interest will be launched by Efus and its partners to Efus members and all other interested local authorities in Europe, to

collect as much examples of practices as possible.

- Practice analysis by the partners. 50 practices will be chosen to illustrate the Best practices Manual.
- Disseminate: dissemination seminar and local events. The last phase of the project will focus on dissemination activities in order to publicise the Manual and the local actions in Europe that promote tolerance and fight racism, giving the voice to local elected representatives

Objectives project (max. 150 words):

- The main objective is to raise awareness at the local level and beyond, by making use of the roles and influence of local elected representatives to inform about the problems of racist violence and all forms of intolerance which are spreading over Europe and to highlight 50 promising local practices in Europe developed by local and regional authorities in the field of fighting and preventing racism and all forms of intolerance.

Project outcome (max. 150 words):

- Production of a best practices Manual, translated in 7 languages that will identify local practices to fight racism and highlight the success factors and tools to fight racism and intolerance and the prevention policies at local level
- Mobilization of local authorities and local elected officials. Efus Executive Committee will produce a resolution on the topic
- A raised public awareness of speeches and racist incidents and other forms of intolerance
- A common communication strategy will ensure a wide dissemination of the project and of the existing prevention messages to counter racism, xenophobia, homophobia and other forms of intolerance

Start and end project:

From 14/09/2015 to 13/09/2017

Timescales and key milestone dates:

WS0 Coordination and management - M0-M24

Month 1-2: Agreement signed with partners

Month 3: Partners' meeting

Month 13: Partner's meeting

Evaluation

Intermediary and final report to the EU Commission

WS1 Collection and exchange of practices (M3-M10)

Practices collection /extensive research phase

WS2 Analysis and recommendations (M6-M13)

Month 11 to month 13: analysis of candidate cities and decision on the 50 practices to be included in the Manual

Month 13: Partner's meeting: review and choice of the practices

Month 13-16: Production of the manual on best practices

WS3 Dissemination and communication activities (M5 to M24)

Month 5: launch of the campaign to collect practices

Month 16 to month 24 (and further on): Dissemination of results including:

Publication of the Manual of Best practices

Dissemination seminar

Organisation of 5 dissemination events at national level

Dissemination of the Manual and online database

Funding (total budget and type of funding (e.g. ISEC, EUCPN Fund,...)):

Project 25

Project title: I'M HERE PROGRAM

Main theme: To maximize all the situations related to child safety on public spaces. Increasing the surveillance, giving a extra safety solution for parents and child tutors.

Project purpose and outcome (in two sentences): Free access to a police database were parents of children between 02 and 09 years, fill a form with critical information such as address, phone numbers, emergency contacts and gets in a police station a wristband with a serial number. When this child, for some reason, is seen alone in a public space people can provide, with a 112 number, the number and the police contact parents.

Project submitter (Member State): Portugal – Public Security Police

Project leader(s): Public Security Police (www.psp.pt)

Project partner(s): PT Portugal (communication provider), RFM (radio broadcaster); IAC (a Portuguese ONG for children needs), TAP (airline), Missing Children Europe.

Project description (max. 150 words): We start a pilot in late 2012 with more than 8.000 wristbands. Last summer we had more than 50.000 wristbands distributed among child between 02 and 09 years old. We want to provide an extra safety guarantee to parents because accidents happen and with that free program we can lead parents to police stations and besides giving a wristband, we give as well tips and have a positive speech with all for all the good reasons. This program starts in the 1st day of June and ends in the last day of September. We let our database functioning until the 31st of December for all the parents that want to maintain wristbands in child.

Objectives project (max. 150 words**):** Our objective is to construct a safety environment for all, starting with children and engaging the parents in this objective. People often go to police stations for bad and negative reasons and with this program we invite all to come to police stations for positive reasons.

Project outcome (max. 150 words**):** We already reached more than 100.000 childrens and more than 100.000 families in the last three years. We want to reach more in the next summer. In the last summer we had more than 18 different nationalities which is a great increase. We want as well to increase the communication among Europe Countries because we work in a “112” basis of emergency and this can be used in different European countries for the same purpose: identify lost children in a public space.

Start and end project: Every year and summer we launch the program in the 1st day of June and ended in the last day of September. More information in:
<https://estouquaqui.mai.gov.pt/> - website from the Program.

Timescales and key milestone dates: 2012: 8.000 wristbands, 2013: 24.000 wristbands, 2014: 25.000 wristbands and 2015: 51.000 wristbands from 19 different nationalities.

Funding (total budget and type of funding (e.g. ISEC, EUCPN Fund,...)): We have 50% of the funds from partners (private Portuguese brands with social responsibility programs) and 50% from Police. This summer cost was nearly 10.000€

Project 26

Project title:

Special Program SIGNIFICANT BLUE.

Main theme:

Safety of persons with intellectual disabilities and / or multiple disabilities and those who interact with them.

Project purpose and outcome (in two sentences):

1. Raise awareness and train professionals from organizations in the area of disability and rehabilitation to a culture of prevention of violence and abuse against persons with disabilities;
2. To sensitize the elements of the PSP to the problem of disability and the need for special protection of persons with disabilities; and
3. Promote inter-institutional cooperation between the PSP and the field of disability and rehabilitation.

Project submitter (Member State):

Portugal

Project leader(s):

Public Security Police

Project partner(s):

National Federation of Social Solidarity Cooperatives (FENACERCI), National Institute for Rehabilitation, IP (INR) and the National Confederation of Solidarity Institutions (CNIS).

Project description (max. 150 words):

The Special Program SIGNIFICANT BLUE is a nationwide project that aims to promote the safety of persons with intellectual disabilities and / or multiple disabilities and those who interact with them, and as three phases:

1. Training:

- a) Provide training to LEA of PSP, making them aware of the problems of people

with disabilities and the need for special protection; and

- b) Provide training for professional organizations in the area of disability and rehabilitation, procedures and information necessary for the preparation of socio-criminal diagnosis and evidence-gathering.

2. Implementation:

- a) Promote local partnerships with the organizations of intellectual disability field and / or multiple disabilities, by entering into local protocols; and
- b) Name privileged interlocutors to interact with organizations in the field.

3. Development and Evaluation:

- a) Implementing awareness-raising actions directed to employees of partner organizations, people with intellectual disabilities and / or multiple disabilities, and family or significant of these.

Objectives project (max. 150 words):

1. Raise awareness and train professionals from organizations in the area of disability and rehabilitation to a culture of prevention of violence and abuse against persons with disabilities;
2. To sensitize the elements of the PSP to the problem of disability and the need for special protection of persons with disabilities;
3. Promote inter-institutional cooperation between the PSP and the field of disability and rehabilitation;
4. Improve service and referral of people with disabilities; and
5. Specialize communication and information for people with disabilities.

Project outcome (max. 150 words):

1. On December 3, 2014 were signed more than 200 local protocols between the institutions in the area of disability and the police stations of the PSP.
2. During 2015, Police officers give 229 awareness-raising actions.

Start and end project:

Start at September 6, 2013, and it has no ending.

Timescales and key milestone dates:

September 6, 2013: First national protocol signed.

December 3, 2014: Second national protocol signed and more than 200 local protocols signed.

December 3, 2015: First evaluation reveals that where made 229 awareness-raising actions.

Project 27

Project title:

I do has FALCO says.

Main theme:

Short stories to promote safety and fomenting of civics and citizenship among children between 5 and 10 years old, using FALCO - PSP mascot.

Project purpose and outcome (in two sentences):

Produce a collection of ten short stories to promote safety and fomenting of civics and citizenship among children between 5 and 10 years old, using as main reference the figure of FALCO - PSP mascot. These stories will be used to support the awareness-raising actions that Police officers will do during the year in close interaction with the school community.

Project submitter (Member State):

Portugal

Project leader(s):

Public Security Police

Project partner(s):

PT Foundation.

Project description (max. 150 words):

This project aims to improve LEA actions in the school community to promote the culture of safety and fomenting of civics and citizenship. Assuming as main reference the figure of FALCO - PSP mascot, the Police produces a collection of ten (10) short stories, on subjects as:

- a) The contact with strangers, in the story "The boys and Mr. E";
- b) Care in the summer holidays, in the story "The bracelet of shells";
- c) Pedestrian safety and precautions in the path home-school-home, in story "The

- Anastacio ride";
- d) Bullying in the story "The Baltazar learn the lesson"; or
 - e) Security in the Internet, in the story, "Igor and the contest of friendship".

Police use the collaboration of experts control the complexity of the text.

The argument of each story follows this structure:

- a) Presenting the problem;
- b) Hypotheses provided by children;
- c) Refutation of the wrong one's;
- d) Validation of the right one.

Objectives project (max. 150 words):

Promote safety and fomenting of civics and citizenship among children between 5 and 10 years old.

Achieve the most number of children possible trough the first animation series produced by a LEA, using the social network and children tv channels.
